GOVERNMENT SUPPLEMENTAL TERMS AND CONDITIONS v110611

ORACLE AMERICA, INC. ("ORACLE") IS A FIRST TIER SUBCONTRACTOR UNDER THIS CONTRACT. THESE SUPPLEMENTAL TERMS AND CONDITIONS APPLY TO ORACLE PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACTOR UNDER THE CONTRACTOR'S GSA SCHEDULE CONTRACT (THE "CONTRACT"). THESE SUPPLEMENTAL TERMS AND CONDITIONS SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN AN ORDER OR ORDERING DOCUMENTATION.

A. Definitions

"You" and "your" refers to the ordering activity that has ordered programs, and/or services from an authorized distributor ("Contractor") under this contract.

The term "ancillary programs" refers to third party materials specified in the program documentation which may only be used for the purposes of installing or operating the programs with which the ancillary programs are delivered.

The term "program documentation" refers to the program user manual and program installation manuals.

The term "programs" refers to the software products owned or distributed by Oracle which you have ordered, program documentation, and any program updates acquired through technical support.

The term "services" refers to technical support services which you have ordered.

B. Rights Granted

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of this contract, including these Government Oracle Supplemental Terms and Conditions, the Oracle License Definitions and Rules, and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with this contract in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

C. Ownership and Restrictions

Oracle or its licensors retain all ownership and intellectual property rights to the programs.. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under this contract resulting from services. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation. Such third party technology is licensed to you under the terms of the third party technology license agreement specified in the program documentation and not under the terms of this contract.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program markings or any notice of Oracle's or its licensors' proprietary rights;

- make the programs or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program license or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software; or
- disclose results of any program benchmark tests.

D. Warranties, Disclaimers and Exclusive Remedies

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL PROGRAM ERRORS.**

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT SUCH BREACH IN A COMMERCIALLY REASONABLE MANNER YOU MAY END YOUR PROGRAM LICENSE AND RECOVER THE FEES PAID TO ORACLE FOR THE PROGRAM LICENSE DISTRIBUTED TO YOU; OR (B) THE REPERFORMANCE OF THE DEFICIENT SERVICES PROVIDED BY ORACLE; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THOSE SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT SERVICES PROVIDED BY ORACLE TO YOU.

TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

E. Technical Support

Technical support consists of annual technical support services you may have ordered for the programs .

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at http://www.oracle.com/us/support/policies/index.html. Java SE Support (or any successor technical support offering to Java SE Support) acquired with your order may be renewed annually. The order with Contractor will specify your Java SE Support fee for the first renewal year should you renew Java SE Support as contained in the original order; the fee for Java SE Support for the second renewal year will not increase by more than 4% over the prior year's fees. Java SE Support is effective upon the effective date of the order. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then

you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period. Technical support services charges for SULS (or any successor technical support offering to SULS) are classified as Software Maintenance as a Service and must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

Notwithstanding anything in Oracle's technical support policies to the contrary, you may discontinue technical support at the end of any current technical support term and, at any time thereafter, reinstate technical support by executing an order for such services with Contractor. If you decide to reinstate technical support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had technical support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the technical support fee for the new support period. This technical support fee for the new support period is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

F. Intellectual Property Indemnification

If someone makes a claim against you, including the U.S. Government, and its officers, employees and agents, or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, data, or material ("Material") furnished by either you or Oracle ("Provider" which may refer to you or Oracle depending on which party provided the Material), and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

- notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- gives the Provider control of the defense, with input from Recipient, and any settlement negotiations, provided that for the U.S. Government the control of the defense and settlement is subject to 28 U.S.C. 516; and
- gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid for it. If you are the Provider and such return materially affects Oracle's ability to meet its obligations under the relevant order (e.g., impairs Oracle's ability to perform due to a work statement, schedule or cost impact), then Oracle may, at its option and upon 30 days prior written notice, request termination of the order. Oracle's right to end the license or request termination of the order in accordance with this paragraph shall not apply if the U.S. Government authorizes or consents to use of the Material, and in such cases, Oracle shall have no obligation to indemnify or other liability whatsoever, to the Government or to third parties for infringement, and the exclusive cause of action and remedy for infringement shall be in accordance with 28 U.S.C. 1498, as set forth in 48 C.F.R. 27.201-1(a). The Provider will not indemnify the Recipient if the Recipient

alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of this agreement would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of this agreement (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of this agreement.

With respect to the U.S. Government, the foregoing indemnification shall not apply as to the United States indemnifying Oracle or any other party; however, Oracle reserves the right to seek indemnification from the U.S. Government in accordance with the preceding paragraphs should Federal statute permit such indemnification.

G. Other

1. You may not assign orders or give or transfer the programs and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs and/or any services deliverables, the secured party has no right to use or transfer the programs and/or any services deliverables, and if you decide to finance your acquisition of programs and/or any services, you will follow Oracle's policies regarding financing which are at http://oracle.com/contracts. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the linux operating system, third party technology or separate works licensed under open source or similar license terms.

2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of the contract, including these Oracle Supplemental Terms and Conditions.

3. The extent to which an Oracle program is, at the time of delivery, capable of providing comparable access to individuals with disabilities is indicated by the comments and exceptions (if any) specified on the applicable Voluntary Product Accessibility Template (VPAT) available at www.oracle.com/us/corporate/accessibility, provided that such Oracle program is used in accordance with the applicable Oracle program documentation and that any assistive technologies and any other products used with the Oracle product properly interoperate with the Oracle product. The VPAT indicates the degree of conformance with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as "Section 508"). In the event that Section 508 is revised over the life of the contract Agreement, the VPAT will indicate the applicable version. The VPAT also lists the degree of conformance with the Web Content Accessibility Guidelines (WCAG) if applicable (said standards only apply to "web pages"). In the event that no VPAT is available for a particular product, please contact the Oracle Accessibility Program Office at accessible_ww@oracle.com. Oracle makes no representations regarding the accessibility status of any product identified as "third party."

4. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs. You agree that such export laws govern your use of the programs (including technical data), and any services deliverables provided under the contract, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, and/or materials resulting from

services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

5. The Uniform Computer Information Transactions Act does not apply to these Oracle Supplemental Terms and Conditions nor any order placed pursuant to them.

6. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

7. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

8. Unless otherwise agreed in an order, upon 45 days written notice, and no more than once annually, Contractor may audit your use of the programs. You agree to cooperate with Contractor's audit, provide reasonable assistance and access to information and permit Contractor to report the audit results to Oracle. Any such audit shall not unreasonably interfere with your normal business operations. Contractor shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Contractor prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for either paying any underpaid fees related to use of the programs and Oracle or the Contractor, as the case may be, shall submit a contract modification to document the amount of such fees, or for discontinuing noncompliant use. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.

9. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.

10. Source code may be delivered as part of the standard delivery for particular programs; all such source code is subject to the terms of the contract, including these Oracle Government Supplemental Terms and Conditions, the applicable order and the applicable program documentation.

11. Oracle's Applications Licensing Table in effect as of the effective date of this Contract is attached hereto as Exhibit B. You may access the current version of the Applications Licensing Table at http://oracle.com/contracts.

12. Oracle's License Definitions and Rules are incorporated herein and attached hereto as Exhibit A.

    If any document incorporated by reference into these Government Supplemental Terms and Conditions, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your license rights or technical support services; (b) allowing for the automatic renewal of services and/or fees; and/or (c) requiring

the governing law to be anything other than Federal law, then, such terms shall not apply. If any document incorporated by reference into these Government Supplemental Terms and Conditions, including the License Definitions and Rules and terms included and/or referenced therein, **co**ntains an indemnification provision, such provision shall not **apply as to the United States indemnifying Oracle or any other party**; however, Oracle reserves the right to seek indemnification from the U.S. Government in accordance with the **terms of section F above** should Federal statute permit such indemnification.

EXHIBIT A

ORACLE LICENSE DEFINITIONS AND RULES v110711r1

ORACLE

ORACLE LICENSE DEFINITIONS AND RULES (v110711r1)

ORACLE AMERICA, INC. ("ORACLE") IS A FIRST TIER SUBCONTRACTOR UNDER THIS CONTRACT. THESE ORACLE LICENSE DEFINITIONS AND RULES APPLY TO ORACLE PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACTOR UNDER THE CONTRACT. THESE LICENSE DEFINITIONS AND RULES ARE INCLUDED AS PART OF THE ORACLE GOVERNMENT SUPPLEMENTAL TERMS AND CONDITIONS.

For these Oracle License Definitions and Rules, "you/your" shall have the same meaning as "ordering activity". The term "ordering activity" refers to a third party that is eligible (as identified in Appendices A, B and C of GSA ADM 4800.2G and any subsequent revision) to place orders off this GSA Schedule contract. In addition, if you have opted into GSA's Cooperative Purchasing Program, the term "ordering activity" includes state and local government entities authorized through Cooperative Purchasing (GSAM Subpart 538.70) to place orders off this GSA Schedule Contract.

Definitions and License Metrics

Adapter: is defined as each software code interface, installed on each Oracle Internet Application Server Enterprise Edition, which facilitates communication of information between each version of a third party software application or system and Oracle programs.

$M Annual Transaction Volume: is defined as one million U.S. dollars in all purchase orders transacted and all auctions conducted through the Oracle Exchange Marketplace by you and others during the applicable year of the Oracle Exchange Marketplace license, regardless of whether any such auction results in a purchase order, provided that an auction resulting in a purchase order shall only be counted against the Annual Transaction Volume once.

Applications National Language Support (NLS) Supplement Media Packs: Please be advised that only a subset of the products included on an Applications NLS Supplement Media Pack have been translated. For existing supported customers, My Oracle Support has information on which products have been translated for the supported languages (https://support.oracle.com). For new or unsupported customers, please contact your Oracle Account Manager for this information.

$M in Application Annual Revenue: is defined as one million U.S. Dollars excluding taxes processed through the licensed program. For Oracle Self-Service E-Billing products, the Annual Revenue is equivalent to the total invoiced amount for all company accounts that have at least one enrolled user per billing period.

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion dates for your entire employee population**.** Application Users licensed for Oracle Order Management are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately. For Oracle Sourcing, Oracle Fusion Sourcing, Oracle iSupplier Portal, Oracle Fusion Suplier Portal, Oracle Services Procurement, PeopleSoft eSupplier Connection, PeopleSoft Strategic Sourcing and JD Edwards Supplier Self Service programs, use by your external suppliers is included with your application user licenses.

Application Read-Only User: is defined as an individual authorized by you to run only queries or reports against the application program for which you have also acquired non read-only licenses, regardless of whether the individual is actively using the programs at any given time.

Brand: is defined as a named product offering that corresponds to a specific molecular entity, including multiple dosage forms and multiple strengths for the same molecular entity.

Case Report Form (CRF) Page: is defined as the "electronic equivalent" of what would be the total number of physical paper pages initiated remotely by the program (measured explicitly in the program as Received Data Collection Instruments) during a 12

month period. You may not exceed the licensed number of CRF Pages during any 12-month period unless you acquire additional CRF Page licenses from Oracle.

Collaboration Program User: is defined as an individual authorized by you to use the programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. For the purposes of counting and licensing the number of Beehive Synchronous Collaboration users, a Collaboration Program User within your company is defined as a user able to initiate, or host, a web conference and also participate in a web conference; all participants in the web conference external to your company and attending a web conference are not required to be licensed.

Compensated Individual: is defined as an individual whose compensation or compensation calculations are generated by the programs. The term Compensated Individual includes, but is not limited to, your employees, contractors, retirees, and any other Person.

Computer: is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer. For the purposes of Computer licenses for the Oracle Health Science Integration Engine program, a communication point is an interface to an input system (e.g., a clinical laboratory system in a hospital or healthcare setting) or to an output system (e.g., a healthcare data repository).

Concurrent User: is defined as each individual that may concurrently use or access the programs. Concurrent Users shall be only customers or prospective customers of yours, and shall not be business partners, or employees of yours.

Connected Instance: is defined as the configuration between Oracle Policy Automation Connector for Oracle CRM On Demand and the Oracle CRM On Demand instance's web service endpoint. For each Oracle CRM On Demand instance so configured, an additional Connected Instance is required.

Connector: is defined as each connector connecting the software product with an external product. A unique connector is required for each distinct product that the software product is required to interface.

$M Cost of Goods Sold: is defined as one million U.S. dollars in the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

CPU: is defined as a chip that contains a collection of one or more cores on which the program is running. Regardless of the number of cores, each chip counts as 1 CPU. For the purposes of the following program: Oracle Utilities Customer Care and Billing Application Workbench, you may copy, install and use such program running on a CPU solely for development purposes.

Customer: is defined as the customer entity specified on your order. The programs may not be used or accessed for the business operations of any third party, including but not limited to your customers, partners, or your affiliates. There is no limitation on the number of computers on which such programs may be copied, installed and used.

Customer Account: is defined as each unique Customer Account, designated by a unique account number, for which the billing information is managed or displayed using the program, regardless of the number of individual account holders associated with such accounts.

Oracle Customer Data & Device Retention Service: a description of such service is found in the Technical Support section (Oracle Hardware and Systems Support Policies) at www.oracle.com/contracts and is incorporated by reference.

Customer Record: is defined as each unique Customer Record (including contact records, prospect records and records in external data sources) that you may access using the program.

Developer User / Developer/ Developer Seat: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. With respect to Developer Users only, such users may create, modify, view and interact with the programs and documentation.

Disk Drive: is defined as a spinning media device that stores data accessed by the Oracle Exadata Storage Server Software program.

Electronic Order Line: is defined as the total number of distinct order lines entered electronically into the Oracle program from any source (not manually entered by licensed users) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12-month period.

Employee: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the programs. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the programs.

Employee for HCM: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the programs. The quantity of the licenses required is determined by the number of Employees for HCM and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees for HCM: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the programs. Employees for HCM may only use the licensed programs with Oracle application programs that contain "Oracle Fusion Human Capital Management" as a prefix in the program name.

Employee User: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

Expense Report: is defined as the total number of expense reports processed by Internet Expenses during a 12-month period. You may not exceed the licensed number of expense reports during any 12-month period.

Exadata and Exalogic Elastic Cloud Installation Services, Start-Up Packs and Configuration/Upgrade Services: a description of such Exadata and/or Exalogic Elastic Cloud service(s) is found in the Advanced Customer Services section at www.oracle.com/contracts and is incorporated by reference.

Faculty User: is defined as an active teaching member of the faculty for an accredited academic institution**;** such user may only use the programs for academic and non-commercial use.

Field Technician: is defined as an engineer, technician, representative, or other person who is dispatched by you, including the dispatchers, to the field using the programs.

$M Freight Under Management: is defined as one million U.S. Dollars of the total transportation value of tendered orders for all shipments for a given calendar year during the term of the license. FUM shall include the combined total of actual freight purchased by you, plus the cost of freight for shipments managed by you (e.g., you are not purchasing transportation services on behalf of your clients but are providing transportation management services for your clients). Freight that is paid by a third party shall also be included in the FUM total (e.g., inbound shipments from suppliers to you with freight terms of prepaid).

Full Time Equivalent (FTE) Student: is defined as any full-time student enrolled in your institution and any part-time student enrolled in your institution counts as 25% of an FTE Student. The definition of "full-time" and "part-time" is based on your policies for student classification. If the number of FTE Students is a fraction, that number will be rounded to the nearest whole number for purposes of license quantity requirements.

Guest Room: is defined as the number of guest rooms managed by the program.

Hosted Named User: is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

1K Invoice Line: is defined as one thousand invoice line items processed by the program during a 12-month period. You may not exceed the licensed number of Invoice Lines during any 12-month period unless you acquire additional Invoice Line licenses from Oracle.

IVR Port: is defined as a single caller that can be processed via the Interactive Voice Response (IVR) system. You must purchase licenses for the number of IVR Ports that represent the maximum number of concurrent callers that can be processed by the IVR system.

$M in Managed Assets: is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program, plus (2) Book value of assets on operating leases, whether owned or managed for others, active on the program, plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program, plus (4) Book value of non earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term terminated leases and repossessed assets, plus (5) Original cost of assets underlying leases and loans, originated and active on the program, then sold within the previous 12 months.

Member Record: is defined as each unique customer loyalty program Member Record managed by the program. 100K Member Records shall mean one hundred thousand Member Records.

Module: is defined as each production database running the programs.

Monitored User: is defined as an individual who is monitored by an Analytics program which is installed on a single server or multiple servers, regardless of whether the individual is actively being monitored at any given time. Individual users who are licensed for an Analytics program by either Named User Plus or Application User may not be licensed by Monitored User. For the purposes of the Usage Accelerator Analytics program, every user of your licensed CRM Sales application program must be licensed. For the purposes of the Human Resources Compensation Analytics program, all of your employees must be licensed.

For the purpose of the following Oracle Governance, Risk, and Compliance applications: Application Access Controls Governor, Application Access Controls for E-Business Suite, Configuration Controls Governor, Configuration Controls for E-Business Suite, Transaction Controls Governor, Preventive Controls Governor, and Governance, Risk, and Compliance Controls Suite, the number of Monitored Users is equal to the total number of unique E-Business Suite users (individuals) being monitored by the program(s), as created/defined in the User Administration function of E-Business Suite. Users of iProcurement and/or Self-Service Human Resources are excluded.

For the purpose of the following PeopleSoft Enterprise Governance, Risk, and Compliance applications: Application Access Controls Governor, Application Access Controls for PeopleSoft Enterprise, Configuration Controls Governor, and Configuration Controls for PeopleSoft Enterprise, the number of Monitored Users is equal to the total number of unique PeopleSoft Enterprise (or any other custom applications / programs) users (individuals) that the program monitors.

MySQL Cluster Carrier Grade Edition Annual Subscription, MySQL Enterprise Edition Annual Subscription and MySQL Standard Edition Annual Subscription: are defined as the right to use the specified program(s) in accordance with the applicable license metric and to receive Oracle Software Update License & Support for the specified program(s) and for MySQL Community Edition for the term specified on the order. MySQL Community Edition refers to MySQL that is licensed under the GPL license. Software Update License & Support for MySQL Community Edition does not include updates of any kind. The subscription term is effective upon the effective date of the subscription ordering document, unless otherwise stated in your ordering document. If your order was placed through the Oracle Store, then the effective date is the date your order was accepted by Oracle. Oracle Software Update License & Support services are provided under the applicable technical support policies in effect at the time the services are provided. You must obtain a subscription license for all servers where MySQL Cluster Carrier Grade Edition, MySQL Enterprise Edition and/or MySQL Standard Edition are deployed and for all servers where MySQL Community Edition is deployed, If you obtain Oracle Software Update License & Support services for any servers where MySQL Community Edition is deployed, then you must also purchase a subscription license for all of such servers for which you have obtained Oracle Software Update License & Support services. You may obtain Oracle Software Update License & Support services for the MySQL Community Edition subscription licenses at any level (e.g., at the MySQL Cluster Carrier Grade Edition level, at the MySQL Enterprise Edition level and/or at the MySQL Standard Edition level). At the end of the specified term, you may renew your subscription, if available, at the then current fees for the applicable subscription. If you choose not to renew your subscription, your right to use the program(s) will terminate and you must de-install all applications, tools, and binaries provided to you under the applicable non-Community Edition license (e.g., the license for MySQL Cluster Carrier Grade Edition, MySQL Enterprise Edition and/or MySQL Standard Edition). If you do not renew a subscription, you will not receive any updates (including patches or subsequent versions) and you may also be subject to reinstatement fees if you later choose to reactivate your subscription.

Named User Plus / Named User: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. All of the remaining provisions of this definition apply only with respect to Named User Plus licenses, and not to Named User licenses. A non-human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, Data Masking Pack for Non-Oracle Databases and Test Data Management Pack for Non-Oracle Databases, only the users of the program that is being managed/monitored are counted for the purpose of determining the number of Named User Plus licenses required.

With respect to the following programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Oracle Database and Applications Load Testing Accelerators, each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purposes of determining the number of Named User Plus licenses required.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, Real User Experience Insight and Application Replay Pack, all users of the respective managed application program must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate only (a) the users of the Oracle database from which you capture data and (b) the users of the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database only (a) the users of the Non Oracle database from which you capture data and (b) the users of the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

Network Device: is defined as the hardware and/or software whose primary purpose is to route and control communications between computers or computer networks. Examples of network devices include but are not limited to, routers, firewalls and network load balancers.

Non Employee User - External: is defined as an individual, who is not your employee, contractor or outsourcer, authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

Oracle Financing Contract: is a contract between you and Oracle (or one of Oracle's affiliates) that provides for payments over time of some or all of the sums due under your order.

Oracle Standard Installation Services: a description of such hardware installation service(s) is found in the Advanced Customer Services section at www.oracle.com/contracts and is incorporated by reference.

Order Line: is defined as the total number of order entry line items processed by the program during a 12-month period. Multiple order entry line items may be entered as part of an individual customer order or quote and may also be automatically

generated by the Oracle Configurator. You may not exceed the licensed number of Order Lines during any 12-month period unless you acquire additional Order Line licenses from Oracle.

Order Management User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. Order Management Users are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately.

Orders: is defined as the total number of distinct orders for all programs that are a part of Electronic Orders, entered electronically (not manually entered by licensed professional users) through EDI, XML or other electronic means including purchase orders transmitted from Oracle Purchasing, during a 12-month period. You may not exceed the licensed number of orders during any 12-month period.

Partner Organization: is defined as an external third party business entity that provides value-added services in developing, marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names such as reseller, distributor, agent, dealer or broker.

Person: is defined as your employee or contractor who is actively working on behalf of your organization or a former employee who has one or more benefit plans managed by the system or continues to be paid through the system. For Project Resource Management, a person is defined as an individual who is scheduled on a project. The total number of licenses needed is to be based on the peak number of part-time and full-time people whose records are recorded in the system.

Physical Server: is defined as each physical server on which the programs are installed.

Ported Number: is defined as the telephone number that end users retain as they change from one service provider to another. This telephone number originally resides on a telephone switch and is moved into the responsibility of another telephone switch.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name, (with the exception of Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non-Oracle Databases, System Monitoring Plug-in for Non-Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, Grid Engine, Data Masking Pack for Non-Oracle Databases and Test Data Management

Pack for Non-Oracle Databases, only the processors on which the program that is being managed/monitored are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel and Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Replay Pack and Real User Experience Insight, all processors on which the middleware software that supports the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, Data Integrator and Application Adapter for Data Integration, Informatica PowerCenter and PowerConnect Adapters, Application Adapters for Data Integration, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Audit Vault Collection Agent, only the processors of the database sources from which audit data is collected must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: In-Memory Database Cache, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Oracle GoldenGate, and Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle ATG Web Commerce Search, only the processors on which queries are processed must be counted. You do not need to count processors on which the program is running for indexing content in configured content sources as long as the foregoing is the only use of the program on all the processors installed in a given server.

Program Documentation: is defined as the program user manual and program installation manuals.

$M in Revenue: is defined as one million U.S. dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by you during a fiscal year.

$M Revenue Under Management: is defined as one million U.S. dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by you during a fiscal year for the product lines for which the programs are used.

Record: The Customer Hub B2B is a bundle that includes two components, Siebel Universal Customer Master B2B and Oracle Customer Data Hub. For the purposes of the Customer Hub B2B application, record is defined as the total number of unique customer database records stored in the Customer Hub B2B application (i.e., stored in a component of Customer Hub B2B). A customer database record is a unique business entity or company record, which is stored as an account for the Siebel Universal Customer Master B2B product or as an organization for the Oracle Customer Data Hub product.

The Customer Hub B2C is a bundle that includes two components, Siebel Universal Customer Master B2C and Oracle Customer Data Hub. For the purposes of the Customer Hub B2C application, record is defined as the total number of unique

customer database records stored in the Customer Hub B2C application (i.e., stored in a component of Customer Hub B2C). A customer database record is a unique consumer (i.e., physical person) record, which is stored as a contact for the Siebel Universal Customer Master product or as a person for the Oracle Customer Data Hub product.

The Product Hub is a bundle that includes two components, Siebel Universal Product Master and Oracle Product Information Management Data Hub. For the purposes of the Product Hub application, record is defined as the total number of unique product database records stored in the Product Hub application (i.e., stored in a component of Product Hub). A product database record is a unique product component or SKU stored in the MTL_SYSTEM_ITEMS table with an active or inactive status and does not include any instance items (i.e. *-star items) or organization assignments of the same item.

For the purposes of the Case Hub program a record is defined as the total number of unique case database records stored in the Case Hub program. A case database record is a unique request or issue requiring investigation or service stored in S_CASE table with an active or inactive status.

For the purposes of the Site Hub program a record is defined as the total number of unique site database records stored in the RRS_SITES_B table of the Site Hub program. A site database record is a unique site (e.g., an asset, a building, part of a building (such as a store or a franchise within a store, an ATM, etc.)) stored in the Site Hub program.

For the programs listed above, please see the application licensing prerequisites as specified in the Applications Licensing Table which may be accessed at http://oracle.com/contracts for the grant and restrictions of the underlying Oracle technology.

For the purposes of the Hyperion Data Relationship Management program, a record is defined as the unique occurrence of any business object or master data construct that you choose to manage within the program. Records may describe any number of enterprise information assets, commonly referred to as base members, including but not limited to cost centers, ledger accounts, legal entities, organizations, products, vendors, assets, locations, regions or employees. Additionally, a record may also be a summary object, commonly referred to as a rollup member, that either summarizes base members or describes hierarchical information associated with underlying base members. Records represent unique occurrences and they do not include any duplicates or shared references that may be essential for master data management purposes.

For the purposes of the Supplier Lifecycle Management and Supplier Hub programs, a record is defined as a unique business entity or company record stored as Supplier in the AP_SUPPLIERS table of the Supplier Lifecycle Management and Supplier Hub programs.

For the purposes of the Life Sciences Customer Hub program, a record is defined as the number of unique customer database records stored in such program. A customer database record is a unique physician (i.e., physical person) record which is stored as a contact for the Oracle Life Sciences Customer Hub program.

1000 Records: is defined as 1000 cleansed records (i.e., rows) that are output from a production data flow of the Data Quality for Data Integrator program.

Registered User: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. Registered Users shall be business partners and/or customers and shall not be your employees.

Retail Register: is defined as any device designed to record any part of a sales transaction.

RosettaNet Partner Interface Processes® (PIPs®): are defined as business processes between trading partners. Preconfigured system-to-system XML-based dialogs for the relevant E-Business Suite Application(s) are provided. Each preconfigured PIP includes a business document with the vocabulary and a business process with the choreography of the message dialog.

Rule Set: is defined as a data rules file containing content for a given country in order to perform data quality functions optimized for that country.

Server: is defined as the computer on which the programs are installed. A Server license allows you to use the licensed program on a single specified computer.

Service Order Line: is defined as the total number of service order entry line items processed by the program during a 12-month period. Multiple service order entry line items may be entered as part of an individual customer service order or quote. You may

not exceed the licensed number of Service Order Lines during any 12-month period unless you acquire additional Service Order Line licenses from Oracle.

Socket: is defined as a slot that houses a chip (or a multi-chip module), which contains a collection of one or more cores. Regardless of the number of cores, each chip (or multi-chip module) shall count as a single socket. All occupied sockets on which the Oracle program is installed and/or running must be licensed.

Oracle Solaris Premier Subscription for Non-Oracle Hardware per socket: is defined as the right to use the Oracle Solaris programs (as defined below) on hardware not manufactured by or for Sun/Oracle, and to receive Oracle Premier Support for Operating Systems services (limited to the Oracle Solaris programs), for the term specified in the ordering document. "Oracle Solaris programs" refers to the Oracle Solaris operating system and the separately licensed third party technology (as defined below). The Oracle Solaris programs may contain third party technology. Oracle may provide certain notices to you in program documentation, "readme" files or the installation details in connection with such third party technology. Third party technology will be licensed to you either under the terms of the agreement, or if specified in the program documentation, "readme" files, or the installation details, under separate license terms ("separate terms") and not under the terms of the agreement ("separately licensed third party technology"). Your rights to use such separately licensed third party technology under the separate terms are not restricted in any way by the agreement.
The Oracle Solaris programs may include or be distributed with certain separately licensed components that are part of Java SE ("Java SE"). Java SE and all components associated with it are licensed to you under the terms of the Oracle Binary Code License Agreement for the Java SE Platform Products, and not under the agreement. A copy of the Oracle Binary Code License Agreement for the Java SE Platform Products can be found at www.oracle.com/contracts

This subscription is available only for a server that is certified by Oracle and listed on the Hardware Compatibility List (HCL) at http://www.sun.com/bigadmin/hcl. You must obtain a subscription license for each socket in the server. The subscription term is effective upon the effective date of the subscription ordering document, unless otherwise stated in your ordering document. If your order was placed through the Oracle Store, then the effective date is the date your order was accepted by Oracle. Oracle Premier Support for Operating System services are provided under the applicable technical support policies in effect at the time the services are provided. At the end of the specified term, you may renew your subscription, if available, at the then current fees for this subscription.

If your order specifies **"1 – 4 socket server"** then you may only use the subscription on a server with not more than 4 sockets. If your order specifies **"5+ socket server"** then you may use the subscription for servers with any number of sockets.

Subscriber: is defined as (a) a working telephone number for all wireline devices; (b) a portable handset or paging device that has been activated by you for wireless communications and paging; (c) a residential drop or a nonresidential device serviced by a cable provider; or (d) a live connected utility meter. The total number of Subscribers is equal to the aggregate of all types of Subscribers. If your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. $1,000 increment of your gross annual revenue as reported to the SEC in your annual report or the equivalent accounting or reporting document.

Suite: is defined as all the functional software components described in the product documentation.

Sun Ray Device: is defined as the Sun Ray computer on which the program is running.

Tape Drive: is defined as mechanical devices used to sequentially write, read and restore data from magnetic tape media. Typically used, but not limited to, data protection and archival purposes, tape drives are deployed either as a standalone unit(s) or housed within a robotic tape library. Examples of tape drive include but are not limited to, Linear Tape Open (LTO), Digital Linear Tape (DLT), Advanced Intelligent Type (AIT), Quarter-Inch Cartridge (QIC), Digital Audio Tape (DAT), and 8mm Helical Scan. For cloud based backups, Oracle counts each parallel stream or Recovery Manager (RMAN) channel as equivalent to a tape drive.

Technical Reference Manuals: Technical Reference Manuals ("TRMs") are Oracle's confidential information. You shall use the TRMs solely for your internal data processing operations for purposes of: (a) implementing applications programs, (b) interfacing other software and hardware systems to the applications programs and (c) building extensions to applications programs. You shall not disclose, use or permit the disclosure or use by others of the TRMs for any other purpose. You shall not use the TRMs to create software that performs the same or similar functions as any of Oracle products. You : (a) agree to exercise either at least the same degree of care to safeguard the confidentiality of the TRMs as you exercise to safeguard the confidentiality of your own most important confidential information or a reasonable degree of care, whichever is greater; (b) agree to maintain agreements with your

agents that protect the confidentiality and proprietary rights of the confidential information of third parties such as Oracle; acknowledge your employees are obligated to protect and use the TRMs in accordance with this paragraph; and agree to instruct your employees and agents of these requirements for the TRMs; (c) agree to restrict disclosure of the TRMs to those of your employees and agents who have a "need to know" consistent with the purposes for which such TRMs were disclosed; (d) agree to maintain the TRMs at all times on your premises; and (e) agree not to remove or destroy any proprietary or confidential legends or markings placed upon the TRMs. Oracle shall retain all title, copyright and other proprietary rights in the TRMs. TRMs are provided to you "as-is" without any warranty of any kind. Upon termination, you shall cease using, and shall return or destroy, all copies of the applicable TRMs.

Telephone Number: is defined as each unique telephone number for which the billing information is managed or displayed using the program, regardless of the number of individual account holders associated with such telephone numbers.

Terabyte: is defined as a terabyte of computer storage space used by a storage filer equal to one trillion bytes.

$B in Total Assets: is defined as one billion US dollars of your latest published or internally available "Total Asset Value" as disclosed in your annual report and/or regulatory filings.

Trainee: is defined as an employee, contractor, student or other person who is being recorded by the program.

Transaction: is defined as each set of interactions that is initiated by an application user recorded by Oracle Enterprise Manager to capture availability and performance metrics used in calculating service levels. For example, the following set of interactions would represent one transaction: login, search customer, log out.

1K Transactions: is defined as one thousand unique transactions processed through the program during a 12-month period. You may not exceed the licensed number of transactions during a 12-month period unless you acquire additional transaction licenses from Oracle. For Oracle Contact Center Anywhere, a unique transaction is defined as one of the following: inbound phone call, outbound phone call (direct dialed, preview dialed, predictive dialed, web call back), workgroup fax, workgroup email/voice mail, and chat session (inbound sessions / web collaboration with agents). For JD Edwards World Purchase Card Management, a unique transaction is defined as a single charge processed by the program.

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

UPK Employee: is defined as an active employee of yours. (Note: The value of these applications is determined by the size of the active employee population and not the number of actual users. Therefore, all of your active employees must be included in your order when licensing these applications). UPK Employees may view and interact with simulations and documentation but may not create or modify simulations or documentation.

UPK Module: is defined as the functional software component described in the product documentation

UPK User: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Users may view and interact with simulations and documentation but may not create or modify simulations or documentation.

Wireless handset: is defined as a mobile communications device such as a mobile telephone, PDA, or paging device, that has as primary functions wireless voice communications and data services provided through a service provider.

Workstation: is defined as the client computer from which the programs are being accessed, regardless of where the program is installed.

Term Designation

If your program license does not specify a term, the program license is perpetual and shall continue unless terminated as otherwise provided in the agreement.

1, 2, 3, 4, 5 Year Terms: A program license specifying a 1, 2, 3, 4 or 5 Year Term shall commence on the effective date of the order and shall continue for the specified period. At the end of the specified period the program license shall terminate.

1 Year Hosting Term: A program license specifying a 1 Year Hosting Term shall commence on the effective date of the order and shall continue for a period of 1 year. At the end of the 1-year the program license shall terminate. A program license specifying a 1 Year Hosting Term may only be used for providing internet hosting services.

1 Year Oracle Hosted Term: A program license specifying a 1 Year Oracle Hosted Term shall commence on the effective date of the order and shall continue for a period of 1 year. At the end of the 1-year the program license shall terminate. A program license specifying a 1 Year Oracle Hosted Term must be hosted by Oracle.com via Computer and Administration services.

1 Year Subscription: A program license specifying a 1 Year Subscription shall commence on the effective date of the order and shall continue for a period of 1 year. At the end of the 1-year the program license shall terminate.

Licensing Rules for Oracle Technology Programs and Oracle Business Intelligence Applications

Failover: Subject to the conditions that follow below, your license for the programs listed on the U.S. Oracle Technology Price List, which may be accessed at http://www.oracle.com/corporate/pricing/pricelists.html, includes the right to run the licensed program(s) on an unlicensed spare computer in a failover environment for up to a total of ten separate days in any given calendar year (for example, if a failover node is down for two hours on Tuesday and three hours on Friday, it counts as two days). The above right only applies when a number of machines are arranged in a cluster and share one disk array. When the primary node fails, the failover node acts as the primary node. Once the primary node is repaired, you must switch back to the primary node. Once the failover period has exceeded ten days, the failover node must be licensed. In addition, only one failover node per clustered environment is at no charge for up to ten separate days even if multiple nodes are configured as failover. Downtime for maintenance purposes counts towards the ten separate days limitation. When licensing options on a failover environment, the options must match the number of licenses of the associated database. Additionally, when licensing by Named User Plus, the user minimums are waived on one failover node only. Any use beyond the right granted in this section must be licensed separately. In a failover environment, the same license metric must be used for the production and failover nodes when licensing a given clustered configuration.

Testing: For the purpose of testing physical copies of backups, your license for the Oracle Database (Enterprise Edition, Standard Edition or Standard Edition One) includes the right to run the database on an unlicensed computer for up to four times, not exceeding 2 days per testing, in any given calendar year. The aforementioned right does not cover any other data recovery method - such as remote mirroring - where the Oracle program binary files are copied or synchronized.

You are responsible for ensuring that the following restrictions are not violated:

- Oracle Database Standard Edition can only be licensed on servers that have a maximum capacity of 4 sockets. Oracle Database Standard Edition, when used with Oracle Real Application Clusters, may only be licensed on a single cluster of servers supporting up to a maximum capacity of 4 sockets.
- Oracle Standard Edition One, Internet Application Server Standard Edition One and Portal Standard Edition One can only be licensed on servers that have a maximum capacity of 2 sockets.
- WebLogic Server Standard Edition does not include WebLogic Server Clustering.
- Business Intelligence Standard Edition One can only be licensed on servers that have the ability to run a maximum of 2 sockets. The data sources for BI Server and BI Publisher are limited to the included Oracle Standard Edition One, one other database, and any number of flat file sources such as CSV, and XLS. You may use Oracle Warehouse Builder Core ETL to pull data from any number of data sources but you must use only the included Oracle Standard Edition One as the target database.
- Informatica PowerCenter and PowerConnect Adapters may not be used on a standalone basis or as a standalone ETL tool. The Informatica PowerCenter and PowerConnect Adapters may be used with any data source provided the target(s) are: (i) the Oracle Business Intelligence applications programs (excluding Hyperion Enterprise Performance Management Applications), (ii) the underlying platforms on which the Oracle Business Intelligence Suite Enterprise Edition Plus program, Oracle Business Intelligence Standard Edition One or associated components of those Business Intelligence applications programs run, or (iii) a staging database for any of the foregoing. Informatica PowerCenter and PowerConnect Adapters may also be used where the Oracle Business Intelligence applications programs (excluding Hyperion Enterprise Performance Management Applications) are the source and non-Oracle Business Intelligence application programs are the target, provided, that users do not use Informatica PowerCenter and PowerConnect Adapters to transform the data.
- With respect to the Java SE Advanced and Java SE Suite programs, you may not create, modify, or change the behavior of, or authorize your users to create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax" "sun" or "oracle" or any variation of the aforementioned naming conventions. The installation and auto-update processes for these programs transmit a limited amount of data to Oracle (or its service provider) about those specific processes to help Oracle understand and optimize them. Oracle does not associate the data with personally identifiable information. You can find more information about the data Oracle collects at http://oracle.com/contracts. Additional copyright notices and license terms applicable to portions of the programs are set forth at http://oracle.com/contracts.
- Programs that contain "for Oracle Applications" in the program name are limited use programs. These limited use programs may only be used with "eligible" Oracle application programs that contain the following prefixes in the program name: Oracle Fusion, Oracle Communications*, Oracle Media, Oracle Retail*, Oracle Enterprise Taxation*, Oracle Utilities*, Oracle Financial Services*, Oracle FLEXCUBE, Oracle Reveleus, Oracle Mantas, Oracle Healthcare*, Oracle Health Sciences, Oracle Argus, Oracle Legal, Oracle Insurance and Oracle Primavera.. For those prefixes designated above with a "*" not all programs with that prefix are eligible for use with the "for Oracle Applications" limited use programs. For a list of excluded programs please review the Applications Licensing Table, which may be accessed at http://oracle.com/contracts. Notwithstanding anything above, Business Intelligence Suite Enterprise Edition Plus for Oracle Applications may only be used with "eligible" Oracle application programs that contain "Oracle Fusion Human Capital Management" as a prefix in the

program name and provided that the Oracle Fusion Human Capital Management programs are the only programs configured to run against the database instance. Oracle Business Intelligence Foundation Suite for Oracle Applications may also be used with the Oracle Product Information Management Analytics, Fusion Edition and Oracle Customer Data Management Analytics, Fusion Edition programs. Any use of limited use programs containing "for Oracle Applications" by other Oracle applications or third party applications is not permitted.

- Oracle BPEL Process Manager Option for Oracle Applications may be used only to enable business processes, workflow interactions and approvals within eligible Oracle Applications. Workflow interactions between eligible Oracle Applications and other Oracle Applications or third party applications are allowed as long as they are enabled/initiated within the eligible Oracle Applications. Business Processes defined in BPEL are allowed as long as at least one of the services invoked from within the Business Process access an eligible Oracle Application either natively (via Web Services) or via an adapter.
- Oracle Business Intelligence Foundation for Oracle Applications may be used only to perform query, reporting and analysis against a transaction database, data warehouse or an Essbase OLAP cube if: (i) the transaction database is an eligible Oracle Applications transaction database itself or an extraction, in whole or in part, of an eligible Oracle Applications transaction database, without transformation (query, reporting and analysis against a transaction database that is not an eligible Oracle Applications transaction database requires a full use license of Oracle Business Intelligence Foundation Suite); or (ii) the data warehouse is a pre-packaged eligible Oracle Applications data warehouse, with any customizations necessary to reflect customizations made in the eligible Oracle Applications, and restricted only to the eligible Oracle Applications sources (query, reporting, and analysis against extensions to the data warehouse drawn from source systems not supported by the pre-packaged data warehouses require a full use license of Oracle Business Intelligence Foundation Suite); or (iii) the dimensions of each Essbase OLAP Cube are sourced from eligible Oracle Applications.
- Oracle WebLogic Suite for Oracle Applications may be used only as an embedded runtime for eligible Oracle Applications or to deploy customizations to an eligible Oracle Application. The WebLogic global datasource or one of the WebLogic application datasources must be configured to access the schema of an eligible Oracle Application.
- Data Integrator Enterprise Edition for Oracle Applications may only be used with the Oracle supplied data integration jobs and customization of the supplied jobs is allowed. For the avoidance of doubt, examples of uses that are not permitted include, but are not limited to, the following: adding new jobs that support different applications, new schemas, or previously unsupported application modules.
- Oracle SOA Suite for Oracle Applications may be used only to enable integration, business processes, workflow interactions and approvals within eligible Oracle Applications. Workflow interactions between eligible Oracle Applications and other Oracle Applications or third party applications are allowed as long as they are either initiated or terminated within eligible Oracle Applications. Usage of SOA composites (including but not limited to Rules, Mediator, XSLT transforms, BPEL processes, Spring components, Workflow services and OWSM security policies) is allowed as long as at least one of the services invoked from within each composite accesses an eligible Oracle Application either natively (via Web services) or via an adapter. Oracle Service Bus (OSB) usage is allowed as long as each service deployed accesses an eligible Oracle Application either natively (via Web services) or via an adapter.
- Oracle WebCenter Portal for Oracle Applications may be used only to surface eligible Oracle Application(s) and custom applications (collectively, “eligible applications”). Surfacing any third-party applications, including other applications from Oracle, requires a license for Oracle WebCenter Portal. Multiple eligible applications may be surfaced in a single portal instance provided that a WebCenter Portal for Oracle Applications license exists for each eligible application surfaced in the portal. WebCenter Portal for Oracle Applications may be used to integrate the various WebCenter services (e.g., wikis, blogs, and discussions) into an application context, as well as to build out custom workflows and notifications between the eligible application and WebCenter Portal components. The content management features of the Oracle WebCenter Portal for Oracle Applications program may be used to store and manage documents created outside of the eligible application provided that such documents are related to the eligible application or to the application context.
- Oracle WebCenter Imaging for Oracle Applications may be used to create and modify imaging searches, to modify prepackaged imaging application document types, and to create and modify input mappings to imaging applications. Oracle WebCenter Imaging for Oracle Applications may also be used to invoke web service application programming interfaces (API’s) from Oracle Application workflows. A license for WebCenter Imaging for Oracle Applications is required to define new document types for the management of images unrelated to a pre-packaged Oracle Applications integration, to develop custom workflows, and to invoke APIs from custom workflows or custom application integrations.
- Oracle Identity and Access Management Suite Plus for Oracle Applications may be used only to perform associated actions for users of and within the eligible Oracle Applications. The programs may be used to do the following: (1) add, delete, modify, and manage user identities and roles in the eligible Oracle Applications; (2) provide web access management and single sign-on into eligible Oracle Applications; (3) provide data storage or virtualization to data storage of user identities and user identity related information or authentication and authorization policies for eligible Oracle Applications; (4) provide federated single sign-on to eligible Oracle Applications
- Oracle Coherence Enterprise Edition for Oracle Applications may only be used within the same Java Virtual Machine as the eligible Oracle Application components.

- Hyperion Data Integration Management, Hyperion Data Integration Management Team Based Development, and the Hyperion Data Integration Management Adapters for SAP BW, SAP R3, PeopleSoft and Siebel are licensed by Computer. Each Computer license is limited to support the use of up to 8 CPUs and each Computer license must be licensed in increments of 8 CPUs. Each core is recognized as a CPU. For computers that have more than 8 CPUs, additional Computer licenses must be purchased based upon the amount of CPUs that you are using. For example, if you are using Hyperion Data Integration Management on 12 CPUs, you need to purchase 2 Computer licenses; if you are using Hyperion Data Integration Management on 17 CPUs, you need to purchase 3 Computer licenses. These programs may be used solely in connection with moving data into and out of a Hyperion Data Store(s) (data/metadata repository(ies) delivered with the Hyperion programs.) These programs may not be used to extract data from a non-Hyperion Data Store(s) to load a custom data warehouse (a data warehouse not built solely from data from a Hyperion Data Store(s). The Hyperion Data Integration Management Computer license allows for such program to 1) connect to the following relational databases only: Oracle, Sybase, IBM DB2, MS SQL Server and 2) source from and write to an unlimited number of flat file/XML files. Hyperion Data Integration Management Adapters for SAP BW, SAP R3, PeopleSoft and Siebel must be licensed separately to allow Hyperion Data Integration Management to connect to these additional sources.
- The number of Hyperion program option licenses must match the number of licenses of the associated Hyperion program.
- The license for the Hyperion Planning Plus program includes a limited use license for the Hyperion Essbase Plus, Hyperion Financial Reportingand Hyperion Web Analysis programs. Such limited use license means that the Hyperion Essbase Plus, Hyperion Financial Reporting and Hyperion Web Analysis programs may only be used to access data from the Hyperion Planning Plus program. The Oracle Data Integrator – Target Database program may be used to load data from any data source provided that the target database is the Hyperion Planning Plus program. Specifically, the Hyperion Essbase Plus program cannot be used to create Essbase cubes that do not contain data used by the Hyperion Planning Plus program and the Aggregate Storage option component of the Hyperion Essbase Plus program may not be used.
- The license for the Hyperion Profitability and Cost Management program includes a limited use license for the Hyperion Essbase Plus, Hyperion Financial Reporting, Hyperion Web Analysis and Oracle Data Integrator - Target Database programs. Such limited use license means that the Hyperion Essbase Plus, Hyperion Financial Reporting, Hyperion Web Analysis and Oracle Data Integrator - Target Database programs may only be used to access data from the Hyperion Profitability and Cost Management program. Specifically, the Hyperion Essbase Plus program cannot be used to create Essbase cubes that do not contain data used by the Hyperion Profitability and Cost Management program and the Aggregate Storage option component of the Hyperion Essbase Plus program may not be used.
- The license for the Hyperion Data Relationship Management program includes a limited use license for both the WebLogic Server Standard Edition and BPEL Process Manager programs. Such limited use license means that the WebLogic Server Standard Edition and BPEL Process Manager programs may only be used to enable workflow functions in order to process requests within the Hyperion Data Relationship Management program.
- You may run only one data repository of the Oracle Real User Experience Insight per server regardless of the number of processors that are licensed for a server.

If you purchase Named User Plus licenses for the programs listed below, you must maintain the following user minimums and user maximums:

Program	Named User Plus Minimum
Oracle Database Enterprise Edition	25 Named Users Plus per Processor
Times Ten In-Memory Database	25 Named Users Plus per Processor
Cloud File System	25 Named Users Plus per Processor
Rdb Enterprise Edition	25 Named Users Plus per Processor
CODASYL DBMS	25 Named Users Plus per Processor
Data Integrator Enterprise Edition	25 Named Users Plus per Processor
GoldenGate	25 Named Users Plus per Processor
GoldenGate for Non Oracle Database	25 Named Users Plus per Processor
GoldenGate Veridata	25 Named Users Plus per Processor
GoldenGate for Teradata Replication Services	25 Named Users Plus per Processor
Java SE Advanced	10 Named Users Plus per Processor
Java SE Suite	10 Named Users Plus per Processor
WebLogic Server Standard Edition	10 Named Users Plus per Processor
WebLogic Server Enterprise Edition	10 Named Users Plus per Processor
WebLogic Suite	10 Named Users Plus per Processor
Web Tier	10 Named Users Plus per Processor
Coherence Standard Edition	10 Named Users Plus per Processor

Coherence Enterprise Edition	10 Named Users Plus per Processor
Coherence Grid Edition	10 Named Users Plus per Processor
TopLink and Application Development Framework	10 Named Users Plus per Processor
GlassFish Server	10 Named Users Plus per Processor
Internet Application Server Standard Edition	10 Named Users Plus per Processor*
Internet Application Server Enterprise Edition	10 Named Users Plus per Processor*
Enterprise Gateway	10 Named Users Plus per Processor
BPEL Process Manager	10 Named Users Plus per Processor
WebLogic Integration	10 Named Users Plus per Processor
Service Registry	10 Named Users Plus per Processor
Enterprise Repository	10 Named Users Plus per Processor
Forms and Reports	10 Named Users Plus per Processor
Tuxedo	10 Named Users Plus per Processor
SOA Suite for Non Oracle Middleware	10 Named Users Plus per Processor
Unified Business Process Management Suite for Non Oracle Middleware	10 Named Users Plus per Processor
Event-Driven Architecture Suite	10 Named Users Plus per Processor
Business Intelligence Standard Edition	10 Named Users Plus per Processor
B2B for RosettaNet	10 Named Users Plus per Processor
B2B for EDI	10 Named Users Plus per Processor
Healthcare Adapter	10 Named Users Plus per Processor
B2B for ebXML	10 Named Users Plus per Processor
WebCenter Suite	10 Named Users Plus per Processor
WebCenter Services	10 Named Users Plus per Processor
Universal Content Management Standard Edition	10 Named Users Plus per Processor
Universal Content Management	10 Named Users Plus per Processor
Imaging and Process Management	10 Named Users Plus per Processor
Content Conversion Server	10 Named Users Plus per Processor
Distributed Document Capture	10 Named Users Plus per Processor
Directory Services Plus	10 Named Users Plus per Processor
WebCenter Real-Time Collaboration	10 Named Users Plus per Processor
WebCenter Intelligent Collaboration	10 Named Users Plus per Processor
On Track Communication Standard Edition	10 Named Users Plus per Processor
On Track Communication Enterprise Edition	10 Named Users Plus per Processor
Enterprise Gateway for Access Management	10 Named Users Plus per Processor
Beehive Enterprise Messaging Server	10 Named Users Plus per Processor
Beehive Enterprise Collaboration Server	10 Named Users Plus per Processor

*The Named User Plus Minimum does not apply if the program is installed on a one-processor machine that allows for a maximum of one user per program.

Program	**Named User Plus Maximum**
Personal Edition	1 Named User Plus per database
Business Intelligence Standard Edition One	50 Named Users Plus

If licensing by Named User Plus, the number of licenses for the programs listed below in column A must match the number of licenses of the associated program listed in column B. In the case where the minimum number of Named User Plus licenses are/were purchased, the number of licenses may not match due to variance in core factors between the times the respective programs were licensed. If licensing by Processor, the number of licenses for the programs listed below in column A must match the number of licenses of the associated program listed in column B. In the case where the programs are licensed at different times, the number of licenses may not match due to variance in core factors between the time the respective programs were licensed; in that case the number of cores used to determine the number of licensed processors for the programs listed below in column A must match the number of cores used to determine the number of licensed processors of the associated program listed in Column B. Associated programs are those programs being used in conjunction with the program in Column A.

Column A	Column B
Database Enterprise Edition Options*- Real Application Clusters, Real Application Clusters One Node, Partitioning, OLAP, Data Mining, Spatial, Advanced Security, Label Security, Database Vault, Active Data Guard, Real Application Testing, Advanced Compression, Total Recall, Retail Data Model, Communications Data Model **Database Enterprise Management*-** Diagnostics Pack, Tuning Pack, Database Lifecycle Management Pack, Cloud Management Pack for Oracle Database	Oracle Database Enterprise Edition, Audit Vault Server
RDB Server Options*- TRACE	Rdb Enterprise Edition, CODASYL DBMS
WebLogic Suite Options-** BPEL Process Manager Option, Service Bus, SOA Suite for Oracle Middleware, Business Process Management Suite	WebLogic Suite
Application Server Enterprise Management-** WebLogic Server Management PackEnterprise Edition, SOA Management Pack Enterprise Edition, Cloud Management Pack for Oracle Fusion Middleware	Associated application server program being managed by the program in Column A.
Management Pack for Oracle Coherence**	Coherence Enterprise Edition, Coherence Grid Edition
Management Pack for Oracle GoldenGate*	GoldenGate, GoldenGate for Non Oracle Database, GoldenGate for Mainframe
Business Intelligence Server Enterprise Edition Options- Interactive Dashboard, Delivers, Answers, Office Plug-in and Reporting and Publishing	Business Intelligence Server Enterprise Edition
Business Intelligence Suite Enterprise Edition Plus Option- Business Intelligence Management Pack	Business Intelligence Suite Enterprise Edition Plus
Beehive Platform Options- Beehive Messaging, Beehive Team Collaboration, Beehive Synchronous Collaboration, Beehive Voicemail	Beehive Platform
Hyperion Financial Data Quality Management Options- Hyperion Financial Data Quality Management Adapter for Financial Management, Hyperion Financial Data Quality Management Adapter Suite, Hyperion Financial Data Quality Management Adapter for SAP	Hyperion Financial Data Quality Management
Hyperion Financial Data Quality Management for Hyperion Enterprise Option- Hyperion Financial Data Quality Management Adapter Suite	Hyperion Financial Data Quality Management for Hyperion Enterprise
Hyperion Financial Data Quality Management for Hyperion Enterprise Option- Hyperion Financial Data Quality Management Adapter Suite	Hyperion Financial Data Quality Management for Hyperion Enterprise
Hyperion Data Integration Management Options- Hyperion Data Integration Management Source Adapter, Hyperion Data Integration Management Team Based Development	Hyperion Data Integration Management

Hyperion Data Integration Management Options- Hyperion Data Integration Management Source Adapter, Hyperion Data Integration Management Team Based Development	Hyperion Data Integration Management

*If licensing by Named User Plus you must maintain, at a minimum, 25 Named Users Plus per Processor per associated program.

** If licensing by Named User Plus you must maintain, at a minimum, 10 Named Users Plus per Processor per associated program.

Licensing Rules for ATG Applications

- You are responsible for ensuring compliance with the application licensing prerequisites as specified in the Applications Licensing Table, which may be accessed at http://oracle.com/contracts.
- The Oracle ATG Web Commerce Business Intelligence program and the Oracle ATG Web Commerce Business Intelligence Administrator program may only be used in conjunction with either the Oracle ATG Web Commerce program and/or the Oracle ATG Web Knowledge Manager program. You may, however, expand your data model to include other information provided the additional information supplements information is already included in the Oracle ATG Web Commerce program or in the Oracle ATG Knowledge Manager program.
- The Cognos BI Consumer Bundle is included in the Oracle ATG Web Commerce Business Intelligence program and is comprised of (a) one (1) reporting engine for anonymous viewers consisting of no more than two (2) processors and four (4) total cores, (b) unlimited anonymous report viewer seat licenses, (c) one (1) Named BI Web Administrator seat license and one (1) Named BI Professional Report Author seat license. Any additional seat licenses must be licensed separately by purchase of Oracle ATG Web Commerce BI Administrator seat licenses at an additional cost and are not included in any enterprise-wide or similar license.

Licensing Rules for JD Edwards Applications

- You are responsible for ensuring compliance with the application licensing prerequisites as specified in the Applications Licensing Table, which may be accessed at http://oracle.com/contracts.
- The JD Edwards EnterpriseOne programs include Adobe PDF Library. The programs also include GNU libgmp library; copyright 1991 Free Software Foundation, Inc. This library is free software that can be modified and redistributed under the terms of the GNU Library General Public License contained in the programs. The programs may also contain other third party products.
- Your license for the program(s) may include additional license rights. Please review the additional license rights listed on the PeopleSoft/JD Edwards program table located at http://oracle.com/contracts for additional information.
- The Foundation program contains the development foundation environment/toolkit. You understand and acknowledge that any software program developed with the functionality of the development foundation environment/toolkit is subject to the terms and conditions of this agreement. You will defend and indemnify Oracle against any claims by third parties for damages (including, without limitation, reasonable legal fees) arising out of any computer programs generated by you utilizing the development tools included in the programs. ORACLE DISCLAIMS ANY WARRANTY THAT THE DEVELOPMENT TOOLS INCLUDED IN THE PROGRAMS WILL GENERATE COMPUTER PROGRAMS WITH THE CHARACTERISTICS OR SPECIFICATIONS DESIRED BY YOU OR THAT SUCH GENERATED COMPUTER PROGRAMS WILL BE ERROR FREE
- The Oracle Technology Foundation for JD Edwards EnterpriseOne and the Oracle Technology Foundation for JD Edwards EnterpriseOne Upgrade programs each include a limited use license for Oracle Database Standard Edition. The database may be used solely in conjunction with any and all licensed JD Edwards EnterpriseOne programs, including third party programs licensed for use with JD Edwards EnterpriseOne programs. The database may be installed on an unlimited number of processors. If you require features and functions beyond those included with the Oracle Database Standard Edition, or if you require use of Oracle Database beyond your JD Edwards EnterpriseOne implementation, you may purchase a non-limited use license by contracting directly with Oracle or one of its authorized distributors.

  The license for each of these programs also includes a limited use license for the following components of Oracle Fusion Middleware: Oracle Application ServerStandard Edition or Oracle WebLogic Server Standard Edition (either of these products may be used, but both products cannot be used for the same function); Oracle JRockit JVM; Oracle Application Server Portal; Oracle WebCenter Services; Oracle BPEL Process Manager; Oracle Business Activity Monitoring; Oracle Application Server Single Sign-On; Oracle Access Manager Basic; Oracle Application Server Web Cache; and Oracle Business Intelligence Publisher. These components may be used solely in conjunction with any and all licensed JD Edwards EnterpriseOne programs, including third party programs licensed for use with JD Edwards EnterpriseOne programs. These components may be installed on an unlimited number of processors. If you require use of these components beyond your JD

Edwards EnterpriseOne implementation you may purchase a non-limited use license for any of the Oracle components by contracting directly with Oracle or one of its authorized distributors.

For the purpose of using Oracle Business Intelligence Publisher, Oracle will include a limited use license of Business Intelligence Publisher for use with JD Edwards EnterpriseOne programs. Any use of Business Intelligence Publisher outside of a JD Edwards EnterpriseOne program, such as with a your own "custom" applications as well as with other Oracle applications (including but not limited to Siebel Applications, PeopleSoft Applications, and/or Oracle Applications) will require a full use license of Business Intelligence Publisher. Business Intelligence Publisher may be installed on an unlimited number of processors.

The development tools included with these programs may be used solely with the licensed JD Edwards EnterpriseOne programs and may not be used to create new applications. You will defend and indemnify Oracle against any claims by third parties for damages (including, without limitation, reasonable legal fees) arising out of any computer programs generated by you utilizing the development tools included in the programs. ORACLE DISCLAIMS ANY WARRANTY THAT THE DEVELOPMENT TOOLS INCLUDED IN THE JD EDWARDS ENTERPRISE ONE PROGRAM WILL GENERATE COMPUTER PROGRAMS WITH THE CHARACTERISTICS OR SPECIFICATIONS DESIRED BY YOU OR THAT SUCH GENERATED COMPUTER PROGRAMS WILL BE ERROR FREE.

- The Technology Foundation and Technology Foundation Upgrade programs each include the following “IBM Components”: IBM DB2 Universal Database, IBM WebSphere Application Server and IBM WebSphere Portal (as contained in Collaborative Portal). IBM Components may be used solely in conjunction with any and all licensed JD Edwards EnterpriseOne programs, including third party programs licensed for use with JD Edwards EnterpriseOne programs. You may obtain a general license for any of the IBM Components by contracting directly with IBM or one of its authorized distributors. The development tools included in this program may be used solely with the licensed JD Edwards EnterpriseOne programs and may not be used to create new applications. You will defend and indemnify Oracle against any claims by third parties for damages (including, without limitation, reasonable legal fees) arising out of any computer programs generated by you utilizing the development tools included in the programs. ORACLE DISCLAIMS ANY WARRANTY THAT THE DEVELOPMENT TOOLS INCLUDED IN THE PROGRAMS WILL GENERATE COMPUTER PROGRAMS WITH THE CHARACTERISTICS OR SPECIFICATIONS DESIRED BY YOU OR THAT SUCH GENERATED COMPUTER PROGRAMS WILL BE ERROR FREE.

Licensing Rules for Oracle E-Business Suite Applications

- You are responsible for ensuring compliance with the application licensing prerequisites as specified in the Applications Licensing Table, which may be accessed at http://oracle.com/contracts.
- The option Activity Hub B2B is only available with the Siebel Customer Universal Master component of the Customer Hub B2B program.
- The option Field Service Hub B2B is only available with the Siebel Customer Universal Master component of the Customer Hub B2B program.
- The option Marketing Hub B2B is only available with the Siebel Customer Universal Master component of the Customer Hub B2B program.
- The option Sales Hub B2B is only available with the Siebel Customer Universal Master component of the Customer Hub B2B program.
- The option Service Hub B2B is only available with the Siebel Customer Universal Master component of the Customer Hub B2B program
- The option Activity Hub B2C is only available with the Siebel Customer Universal Master component of the Customer Hub B2C program.
- The option Field Service Hub B2C is only available with the Siebel Customer Universal Master component of the Customer Hub B2C program.
- The option Marketing Hub B2C is only available with the Siebel Customer Universal Master component of the Customer Hub B2C program.
- The option Privacy Management Policy Hub B2C is only available with the Siebel Customer Universal Master component of the Customer Hub B2C program.
- The option Sales Hub B2C is only available with the Siebel Customer Universal Master component of the Customer Hub B2C program.
- The option Service Hub B2C is only available with the Siebel Customer Universal Master component of the Customer Hub B2C program.

Licensing Rules for PeopleSoft Applications

- You are responsible for ensuring compliance with the application licensing prerequisites as specified in the Applications Licensing Table, which may be accessed at http://oracle.com/contracts.
- Your license for the program(s) may include additional license rights. Please review the additional license rights listed on the PeopleSoft / JD Edwards program table located at http://oracle.com/contracts for additional information.
- The programs listed below include a license to use Business Analysis Modeler – Restricted Development to develop interfaces and modifications, including creation of new application data tables, only to the PeopleSoft programs you have licensed. Oracle will deliver this program to you per the delivery terms in your order.

  Integrated FieldService, Marketing, Mobile Sales, Online Marketing, Order Capture, Order Capture Self Service, Sales, Support for Customer Self Service.
- Your use of the Campus Self Service program is subject to the additional terms and conditions set forth in the INAS Software Supplement located at http://oracle.com/contracts.
- PeopleTools - Enterprise Development shall be used solely to develop applications for your internal data processing operations. In no event shall you market or distribute such applications. Notwithstanding anything to the contrary, you shall not have the right to use the functionality currently referred to as Verity search engine provided as part of this program for the purpose of developing applications.
- Each PeopleTools - Enterprise Development Starter Kit program shall be used solely by 5 application users to develop applications containing no more than a total of 20 components (as defined in the program documentation) for your internal data processing operations. In no event shall you market or distribute such applications. Notwithstanding anything to the contrary, you shall not have the right to use the functionality currently referred to as Verity search engine provided as part of this program for the purpose of developing applications.
- You may use PeopleTools – Restricted Development to develop interfaces and modifications, including creation of new application data tables, only to the PeopleSoft Enterprise programs you have licensed. Oracle will deliver this program to you per the delivery terms in your order.
- The Process Modeler Client program may only be used with PeopleSoft Enterprise or JD Edwards EnterpriseOne programs you have licensed from Oracle. You shall not use this program with any other software.
- The license for the Student Administration program includes a limited use license for the Human Resources, Benefits Administration and the Payroll for North America programs. Such limited use license means that the Human Resources, Benefits Administration and the Payroll for North America Software modules shall only be used in order to access the features and functions of the Student Administration program. Your use of the Student Administration program is subject to the additional terms and conditions set forth in the INAS Software Supplement located at http://oracle.com/contracts.

Licensing Rules for Primavera Applications

- You are responsible for ensuring compliance with the application licensing prerequisites as specified in the Applications Licensing Table, which may be accessed at http://oracle.com/contracts.
- For the purposes of the following Primavera programs: Earned Value Management, Evolve, SureTrak, Contractor and P3 Project Planner, you acknowledge that you have both read and understand the limited Software Update License & Support services that are available for these programs, as described in Oracle's Technical Support Policies.
- For purposes of the Primavera SureTrak and Primavera P3 Project Planner programs, you acknowledge that the agreement delivered to you with these programs (i.e., the Oracle License and Services Agreement), and not the end user license agreement contained in the product installation, governs the end user's use of these programs.
- For the purposes of the Primavera Web Services program, developers and end users who are not already licensed for Primavera P6 Enterprise Project Portfolio Management and who need access to applications created using P6 Web Services and/or P6 Java APIs, must be licensed for the Primavera Web Services program.

Licensing Rules for Siebel Applications

- You are responsible for ensuring compliance with the application licensing prerequisites as specified in the Applications Licensing Table, which may be accessed at http://oracle.com/contracts.
- For the Siebel Branch Teller Services program, Siebel Internet Banking Services program, Siebel Retail Finance Foundation Services program and the Siebel Financial Transactions Workbench program, you may use third party tools to (a) create materials or (b) modify the materials identified as Sample Screen Code and Process Templates in the program documentation, all in accordance with the program documentation, and provided that such materials or modified materials shall be used solely with your licensed use of such programs. You shall not limit in any way Oracle's right to develop, use, license, create derivative works of, or otherwise freely exploit the programs, ancillary programs, program documentation, or any other materials provided by Oracle, or to permit third parties to do so.
- The Siebel Details Program includes a license for 20 Concurrent Users that authorizes you to use the program on only one Computer for a maximum of 20 Concurrent Users at any given time.

- The Siebel Marketing Server program is licensed on a Computer basis together with the number of unique Customer Records that you may access using the program.
- The Siebel Pharma Marketing Server is licensed on the basis of the number of unique Customer Records that you may access using the program together with the number of Brands that you may manage using the program.
- The Siebel Pricing Claims Server-Up to 20 Application Users is licensed on a Computer basis with a limitation on the number of Application Users.
- The users or processors of the Siebel Web Channel program may access a maximum of 15 Objects. An "Object" is defined as each data entity within the Business Object Layer of the programs that is defined in the Siebel Tools program.
- The Siebel Data Quality License may only be used with Oracle Master Data Management or Oracle CRM deployments.

Licensing Rules for Programs Licensed per UPK Module

- Oracle grants to you a non-exclusive, nontransferable license for your UPK Developer(s) to: (i) use those User Productivity Kit ("UPK") programs licensed as UPK modules (collectively referred to as "UPK content") only as necessary to create and provide training solely for UPK Employees and/or UPK Users to use the underlying programs for your benefit; (ii) make an unlimited number of copies of the UPK content only as necessary to create and provide training solely to UPK Employees and/or UPK Users to use the underlying programs for your benefit; and (iii) develop modifications and customizations to the UPK content, if applicable, all subject to the terms and conditions set forth in this agreement, provided all copyright notices are reproduced as provided on the original. You hereby confirm that you have a valid license for the underlying program(s). You are prohibited from reselling or distributing the UPK content to any other party or using the UPK content other than as explicitly permitted in this agreement. Oracle represents that the UPK content and any content created by you using the UPK content contains valuable proprietary information. Oracle retains title to all portions of the UPK content and any copies thereof. You shall use UPK content modifications created by you solely for your internal use in accordance with the terms of this agreement. You may provide access to and use of the UPK content only to those third parties that are licensed as UPK Users and that: (a) provide services to you concerning your use of the UPK content; (b) have a need to use and access the UPK content; and (c) have agreed to substantially similar non-disclosure obligations imposed by you as those contained in this agreement.

Licensing Rules for MySQL Programs

- The MySQL programs may contain third party technology. Oracle may provide certain notices to you in program documentation, "readme" files or the installation details in connection with such third party technology. Third party technology will be licensed to you either under the terms of the agreement, or if specified in the program documentation, "readme" files, or the installation details, under separate license terms ("separate terms") and not under the terms of the agreement ("separately licensed third party technology"). Your rights to use such separately licensed third party technology under the separate terms are not restricted in any way by the agreement.

EXHIBIT B

APPLICATIONS LICENSING TABLE DATED FEBRUARY 14, 2012

Applications Licensing Table

The Applications Licensing Table provides an overview of Oracle's licensing rules and restrictions for use of specific Oracle Applications with specific Oracle Technology. This document is broken into the following sections:

- Oracle Technology Prerequisite Rules for Oracle E-Business Suite Applications
- Oracle Application Specific Technology Products
- Oracle Application Integration Architecture
- Oracle Business Intelligence Publisher
- Oracle Demantra
- Oracle Governance, Risk, and Compliance
- Oracle JD Edwards EnterpriseOne
- Oracle Master Data Management
- Oracle Primavera
- Oracle Self-Service E-Billing Business Edition
- Oracle Self-Service E-Billing Consumer Edition
- Oracle Siebel Mobile Sales Assistant Data Access
- Oracle Siebel Warranty Validation Server

© 2012 Oracle Corporation. All Rights Reserved.

Oracle Technology Prerequisites Rules for Oracle E-Business Suite Applications

This section provides an overview of Oracle's licensing prerequisites for the underlying database and other technologies when license Oracle E-Business Suite Applications as it relates to the level of modifications that are performed to the application programs. Additional prerequisites may apply to specific application programs, please contact your Oracle sales representative for more information.

Please note that there are two tables: one table applicable for orders after February 28, 2007 (see pages 3 and 4); and one table applicable for orders up to and including February 28, 2007 (see pages 5 and 6).

Oracle distinguishes between three levels of modifications to its Oracle E-Business Suite Applications, which have increasing licensing requirements for the underlying database and other technologies. These modification levels are:

No Modifications: The customer is deploying the application without modifications. In this case, the customer receives a restricted-use license for the Oracle Database Enterprise Edition, Oracle Internet Application Server Enterprise Edition, which includes WebLogic Server Basic, and a limited set of other products. This restricted-use license may only be used to run with the licensed application(s); it cannot be used for any other purposes.

Modifications implemented as Java programs and/or modifications to Forms, Reports and/or Workbooks: These modifications include any creation or modification of reports, forms, and/or workbooks. In addition, modifications implemented as Java programs, which include Java that produces html interface or Java business logic fall under this category. In these two scenarios, the customer receives a restricted-use license for the Oracle Database Enterprise Edition and a limited set of other products. This restricted-use license may only be used to run with the licensed application(s); it cannot be used for any other purposes. Additionally, the customer is required to purchase licenses for a limited set of products, including Oracle Internet Application Server Enterprise Edition for the total number of end users[1] or processors for which the modifications are deployed.

Modifications to the database: Examples of these modifications include adding and/or modifying the tables, columns, stored procedures and triggers, which are the part of Oracle E-Business Suite application schema. In this situation, the customer is required to purchase licenses for the Oracle Database Enterprise Edition, as well as Oracle Internet Application Server Enterprise Edition for the total number of end users[1] or processors for which the modifications are deployed. The customer receives a restricted-use license of a limited set of products. Additionally, a limited set of other products is required to be licensed as defined in the following table.

Note: If the date of your order was after February 28, 2007 and you were not an existing Oracle E-Business Suite Applications customer as of that date, please use the table on the follow page.

© 2012 Oracle Corporation. All Rights Reserved.

Types of Modification to Oracle's E-Business Suite Applications	To be licensed in addition to the Oracle E-Business Suite Application(s)		
	Oracle Database Enterprise Edition	**Oracle Internet Application Server Enterprise Edition**	**Oracle Development Tools & Technology**
No Modifications	**Not Required.** Restricted-use license may only be used to run licensed Oracle E-Business Suite Applications.	**Not Required.** Restricted-use license may only be used to run licensed Oracle E-Business Suite Applications.	**Not Required.** Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. **Restricted-use:** Internet Developer Suite for installing and configuring discoverer workbooks and end user layer content. Additionally, Internet Developer Suite for warehouse metadata to support EDW delivered with Oracle Apps (Forms and Report Builders for diagnostics purposes only). Oracle Programmer for the underlying technology as invoked by the unmodified E-Business Suite Applications. Restricted-use for Oracle licensed applications users only: Business Intelligence Publisher[2] to publish information from Oracle Applications.
Modifications implemented as Java programs which include Java that produces html interface or Java business logic **AND/OR** **Modifications to Forms, Reports, and/or Workbooks**	**Not Required.** Restricted-use license may only be used to run licensed Oracle E-Business Suite Applications.	**Licenses required:** For total number of end users[1] or Processors for which the modifications are deployed.	**Not Required:** Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. **Restricted -use**: Oracle Programmer for the underlying technology as invoked by the unmodified E-Business Suite Applications. **Licenses required**: Internet Developer Suite and/or Discoverer Desktop Edition for developers making modifications; JDeveloper for all developers who build Java programs which access application schema and who are not licensed for Internet Developer Suite; For client server workbooks, Discoverer Desktop Edition for total number of actual users[3].

© 2012 Oracle Corporation. All Rights Reserved.

Modifications to the Database	**License required:** For total number of actual users[3] or Processors.	**License required:** For total number of end users[1] or Processors for which the modifications are deployed.	**Not required:** Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. **License required**: Internet Developer Suite and Oracle Programmer for developers making modifications; JDeveloper for developers who use to build Java programs which access application schema and who are not licensed for Internet Developer Suite; For client server workbooks, Discoverer Desktop Edition for total number of actual users[3].

Notes

[1] End Users: All users and/or devices accessing modified E-Business Suite Applications running on Oracle Database must be licensed. Minimums must be met.

[2] Business Intelligence Publisher (BI Publisher): E-Business Suite Applications include a restricted use of BI Publisher (see restricted-use information in Business Intelligence Publisher section).

[3] Actual Users: All users and/or devices accessing E-Business Suite Applications running on Oracle Database must be licensed. Minimums must be met.

If the date of your order was prior to or on February 28, 2007, please use the following table:

© 2012 Oracle Corporation. All Rights Reserved.

Types of Modification to Oracle's E-Business Suite Applications	To be licensed in addition to the Oracle E-Business Suite Application(s)		
	Oracle Database Enterprise Edition	**Oracle Internet Application Server Enterprise Edition**	**Oracle Development Tools & Technology**
No Modifications	**Not Required.** Restricted-use license may only be used to run licensed Oracle E-Business Suite Applications.	**Not Required.** Restricted-use license may only be used to run licensed Oracle E-Business Suite Applications.	**Not Required.** Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. **Restricted -use**: Internet Developer Suite for installing and configuring discoverer workbooks and end user layer content. Additionally, Internet Developer Suite for warehouse metadata to support EDW delivered with Oracle Apps (Forms and Report Builders for diagnostics purposes only). Oracle Programmer for the underlying technology as invoked by the unmodified E-Business Suite Applications. Restricted-use for Oracle licensed applications users only: Customer Data Hub, Business Intelligence Publisher[2] to publish information from Oracle Applications.
Modifications implemented as Java programs which include Java that produces html interface or Java business logic **AND/OR** **Modifications to Forms, Reports, and/or Workbooks**	**Not Required.** Restricted-use license may only be used to run licensed Oracle E-Business Suite Applications.	**Licenses required:** For total number of end users[1] or Processors for which the modifications are deployed.	**Not Required:** Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. **Restricted -use** for Oracle licensed applications users only: Customer Data Hub. Oracle Programmer for the underlying technology as invoked by the unmodified E-Business Suite Applications. **Licenses required**: Internet Developer Suite and/or Discoverer Desktop Edition for developers making modifications; JDeveloper for all developers who build Java programs which access application schema and who are not licensed for Internet Developer Suite; For client server workbooks, Discoverer Desktop Edition for total number of actual users[3].

© 2012 Oracle Corporation. All Rights Reserved.

Modifications to the Database	**License required:** For total number of actual users[3] or Processors.	**License required:** For total number of end users[1] or Processors for which the modifications are deployed.	**Not required:** Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. **Restricted -use**: Diagnostic Pack restricted to the instance of the database where the application is run (if there are other database instances not pertaining to the application and the customer wants to use Diagnostic Pack, the customer must buy a full use license of the Diagnostic Pack for the other database instances). Restricted-use for Oracle licensed Applications users only: Customer Data Hub. **License required**: Internet Developer Suite and Oracle Programmer for developers making modifications; JDeveloper for developers who use to build Java programs which access application schema and who are not licensed for Internet Developer Suite; For client server workbooks, Discoverer Desktop Edition for total number of actual users[3].

Notes

[1] End Users: All users and/or devices accessing modified E-Business Suite Applications running on Oracle Database must be licensed. Minimums must be met.

[2] Business Intelligence Publisher (BI Publisher): E-Business Suite Applications include a restricted use of BI Publisher (see restricted-use information in Business Intelligence Publisher section).

[3] Actual Users: All users and/or devices accessing E-Business Suite Applications running on Oracle Database must be licensed. Minimums must be met.

Oracle Application Specific Technology Products

Oracle Application Specific Technology Products are available on the Oracle Technology Global Price List. These Application Specific Technology Products include:

- **Application Management Pack for Oracle Fusion Applications**
- **Berkeley DB – High Availability for Oracle Applications**
- **Berkeley DB – Transactional Data Store for Oracle Applications**
- **Berkeley DB Java Edition – High Availability for Oracle Applications**
- **Berkeley DB Java Edition – Transactional Data Store**
- **BPEL Process Manager for Oracle Applications**
- **Business Intelligence Foundation Suite for Oracle Applications**
- **Business Intelligence Publisher for Oracle Applications**
- **Business Intelligence Suite Enterprise Edition Plus for Oracle Applications**
- **Coherence Enterprise Edition for Oracle Applications**
- **Data Integrator Enterprise Edition for Oracle Applications**
- **Identity and Access Management Suite for Oracle Applications**
- **In-Memory Database Cache for Oracle Applications**
- **SOA Suite for Oracle Middleware for Oracle Applications**
- **Unified Business Process Management Suite for Oracle Applications**
- **WebCenter Imaging for Oracle Applications**
- **WebCenter Portal for Oracle Applications**
- **WebLogic Suite for Oracle Applications**

Note: please refer to Oracle Technology Global Price List and the Oracle Technology Global Price List Supplement for details on pricing and licensing as well as consult with your Oracle sales representative for more information.

Programs that contain "for Oracle Applications" in the program name are limited use programs. These limited use programs may only be used with "eligible" Oracle applications programs that contain the following prefixes in the program name:

- **Oracle Argus**
- **Oracle Communications** (Except Oracle Communications Billing and Revenue Management Integration Pack for Oracle E-Business Suite: Revenue Accounting)
- **Oracle Documaker**
- **Oracle Enterprise Taxation** (Except Oracle Enterprise Taxation Management Integration to Oracle E-Business Suite Financials General Ledger and Accounts Payable, Oracle Enterprise Taxation Management Integration to Siebel Public Sector for Taxpayer Service, Oracle Enterprise Taxation Management Integration to Siebel Public Sector for Case Management, Oracle Enterprise Taxation Management Integration to PeopleSoft Enterprise Financials General Ledger and Accounts Payable)
- **Oracle Financial Services** (Except Oracle Financial Services Funds Transfer Pricing, Oracle Financial Services Asset Liability Management, Oracle Financial Services Profitability Management, Oracle Financial Services Pricing Management, Oracle Financial Services Transfer Pricing Component, Oracle Financial Services Provisioning)
- **Oracle FLEXCUBE**
- **Oracle Fusion**
- **Oracle Health Sciences**
- **Oracle Healthcare** (Except Oracle Healthcare Transaction Base)
- **Oracle Insurance**
- **Oracle Legal**
- **Oracle Mantas**
- **Oracle Media**

© 2012 Oracle Corporation. All Rights Reserved.

- **Oracle Primavera**
- **Oracle Retail** (Except Oracle Retail Merchandising Integration Pack for PeopleSoft Enterprise Financials: Financial Operations Control)
- **Oracle Reveleus**
- **Oracle Tax**
- **Oracle Utilities** (except Oracle Utilities Customer Care and Billing Integration to JD Edwards Financials for General Ledger and Accounts Payable, Oracle Utilities Customer Care and Billing Integration to PeopleSoft Enterprise Financials for General Ledger and Accounts Payable, Oracle Utilities Customer Care and Billing Integration to Oracle E-Business Suite Financials for General Ledger and Accounts Payable, Oracle Utilities Customer Care and Billing Integration to Oracle Utilities Meter Data Management, Oracle Utilities Customer Care and Billing Integration to Oracle Utilities Network Management System)

Notwithstanding anything above, **Business Intelligence Suite Enterprise Edition Plus for Oracle Applications** may only be used with "eligible" Oracle application programs that contain "Oracle Fusion Human Capital Management" as a prefix in the program name and provided that the Oracle Fusion Human Capital Management programs are the only programs configured to run against the database instance.

Business Intelligence Foundation Suite for Oracle Applications is eligible for use with the following eight Oracle Business Intelligence Applications provided Oracle Fusion Applications is the only data source:

- Financial Analytics, Fusion Edition;
- Human Resources Analytics, Fusion Edition;
- Marketing Analytics, Fusion Edition;
- Partner Analytics, Fusion Edition;
- Procurement & Spend Analytics, Fusion Edition;
- Project Analytics;
- Sales Analytics, Fusion Edition; and
- Supply Chain and Order Management Analytics, Fusion Edition.

Oracle Business Intelligence Foundation Suite for Oracle Applications is also eligible for use with the following three programs: Oracle Product Information Management Analytics, Fusion Edition; Oracle Customer Data Management Analytics, Fusion Edition (both listed on the Oracle Business Intelligence Applications Global Price Lists); and Oracle Product Lifecycle Analytics (available on the Oracle E-Business Suite Applications Global Price List). Any use of limited use programs containing "for Oracle Applications" by other Oracle applications or third party applications is not permitted.

Additional Requirements

In addition, the following 11 Application Specific Technology Products have additional requirements that have to be met:

- Oracle Application Management Pack for Oracle Fusion Applications
- Oracle BPEL Process Manager Option for Oracle Applications
- Oracle Business Intelligence Foundation Suite for Oracle Applications
- Oracle Business Intelligence Suite Enterprise Edition Plus for Oracle Applications
- Oracle Coherence Enterprise Edition for Oracle Applications
- Oracle Data Integrator Enterprise Edition for Oracle Applications
- Oracle Identity and Access Management Suite Plus for Oracle Applications
- Oracle SOA Suite for Oracle Middleware for Oracle Applications
- Oracle WebCenter Imaging for Oracle Applications

© 2012 Oracle Corporation. All Rights Reserved.

- Oracle WebCenter Portal for Oracle Applications
- Oracle WebLogic Suite for Oracle Applications

The additional requirements for these above 11 products are as follows:

Oracle Application Management Pack for Oracle Fusion Applications can only be licensed with WebLogic Suite/WebLogic Suite for Oracle Applications, together with the SOA Suite for Oracle Middleware/SOA Suite for Oracle Middleware for Oracle Applications and must match the number of licenses to the associated WebLogic Suite/WebLogic Suite for Oracle Applications and the SOA Suite for Oracle Middleware/SOA Suite for Oracle Middleware for Oracle Applications.

Oracle BPEL Process Manager Option for Oracle Applications may be used only to enable business processes, workflow interactions and approvals within Oracle Applications. Workflow interactions between Oracle and non Oracle Applications are allowed as long as they are enabled/initiated within Oracle Applications. Business Processes defined in BPEL are allowed as long as at least one of the services invoked from within the Business Process access an Oracle Application either natively (via Web Services) or via an adapter.

Oracle Business Intelligence Foundation Suite for Oracle Applications may be used only to perform query, reporting and analysis against a transaction database, data warehouse or an Essbase OLAP cube if: (i) the transaction database is an Oracle Applications transaction database itself or an extraction, in whole or in part, of an Oracle Applications transaction database, without transformation (query, reporting and analysis against a transaction database that is not an Oracle Applications transaction database requires a full use license of Oracle Business Intelligence Foundation Suite); or (ii) the data warehouse is a pre-packaged Oracle Applications data warehouse, with any customizations necessary to reflect customizations in the Oracle Applications, and restricted only to the Oracle Applications sources (query, reporting and analysis against extensions to the data warehouse drawn from source systems not supported by the pre-packaged data warehouses require a full use license of Oracle Business Intelligence Foundation Suite); or (iii) the dimensions of each Essbase OLAP Cube are sourced from Oracle Applications.

Oracle Business Intelligence Suite Enterprise Edition Plus for Oracle Applications (as noted previously in this document) may only be used with "eligible" Oracle application programs that contain "Oracle Fusion Human Capital Management" as a prefix in the program name and provided that the Oracle Fusion Human Capital Management programs are the only programs configured to run against the database instance.

Oracle Coherence Enterprise Edition for Oracle Applications is limited for use within the same JVM as the Oracle Applications components.

Oracle Data Integrator Enterprise Edition for Oracle Applications may only be used with the Oracle supplied data integration jobs and customization of the supplied jobs is allowed. For the avoidance of doubt, examples of uses that are not permitted include, but are not limited to, the following: adding new jobs that support different applications, new schemas, or previously unsupported application modules.

Oracle Identity and Access Management Suite Plus for Oracle Applications may be used only to perform associated actions for users of and within the eligible Oracle Applications. Oracle Identity and Access Management Suite Plus for Oracle Applications may be used to do the following: (1) add, delete, modify, and manage user identities and roles in the eligible Oracle Applications; (2) provide web access management and single sign-on into eligible Oracle Applications; (3) provide data storage – or virtualization to data storage – of user identities and user identity related information or authentication and authorization policies for eligible Oracle Applications; (4) provide federated single sign-on to eligible Oracle Applications.

Oracle SOA Suite for Oracle Middleware for Oracle Applications may be used only to enable integration, business processes, workflow interactions and approvals within eligible Oracle Applications. Workflow interactions between eligible Oracle Applications and other Oracle applications or third party applications are allowed as long as they are either initiated or terminated within eligible Oracle Applications. Usage of SOA composites (including but not limited to Rules, Mediator, XSLT transforms, BPEL processes, Spring components, Workflow services and OWSM security policies) is allowed as long as at least one of the services invoked from within each composite accesses an eligible Oracle Application either natively (via Web services) or via an adapter. Oracle Service Bus (OSB) usage is allowed as long as each service deployed accesses an eligible Oracle Application either natively (via Web services) or via an adapter.

© 2012 Oracle Corporation. All Rights Reserved.

Oracle WebCenter Imaging for Oracle Applications may be used to create and modify imaging searches, modify pre-packaged imaging application document types, and create and modify input mappings to imaging applications. Imaging can also invoke Web service API's from Oracle Application workflows. A full-use license of WebCenter Imaging is required to define new document types for the management of images unrelated to a pre-packaged Oracle Applications integration, develop custom workflows, and invoke APIs from custom workflows or custom application integrations.

Oracle WebCenter Portal for Oracle Applications can be used only to surface the eligible Oracle application and custom applications. Surfacing any third-party applications, including other applications from Oracle, requires a full-use license. Multiple eligible Oracle applications can be surfaced in a single portal instance provided that a WebCenter Portal for Oracle Applications license exists for each eligible application surfaced in the portal. WebCenter Portal for Oracle Applications can be used to integrate the various WebCenter Services (Wikis, Blogs, Discussions, etc.) into an application context, as well as build out custom workflows and notifications between the eligible Oracle application and WebCenter Portal components. The content management features can be used to store and manage documents created outside the eligible application provided that they are related to the eligible application or application context.

Oracle WebLogic Suite for Oracle Applications may be used only as an embedded runtime for eligible Oracle Applications or to deploy customizations to an eligible Oracle Application. The WebLogic global datasource or one of the WebLogic application datasources must be configured to access the schema of an eligible Oracle Application.

© 2012 Oracle Corporation. All Rights Reserved.

Oracle Application Integration Architecture

All Application Integration Architecture (AIA) products listed in the following pages include restricted-use rights of Oracle Technology and must adhere to the full-use rules noted below.

All Application Integration Architecture (AIA) pre-built integrations include restricted-use licenses of supporting Oracle Technology products/components that can be used to configure, modify and extend the integration packs to meet customer's business requirements within the context of the delivered business process and Application(s).

However, full-use licenses of the necessary Oracle Technology products would be required if a customer wishes to do either of the following:

1) Add another application system (a "new spoke") to the AIA pre-built integration (i.e., a new application beyond the original applications the AIA program provided integration for); or

2) Use additional Enterprise Business Objects (EBO) from the Foundation Pack Library.

1) In cases where an additional application system is added to the Application Integration Architecture pre-built integration, but no additional Enterprise Business Object is used from the Foundation Pack Library, full-use licenses of the following Oracle Technology products are required:

i. WebLogic Suite (for use of Internet Application Server Enterprise Edition)
ii. SOA Suite for Oracle Middleware
iii. Data Integrator Enterprise Edition (when used in the pre-built integration)
iv. Oracle Database Enterprise Edition

Example: A customer buys the "Order-to-Cash" Process Integration Pack between Siebel CRM and Oracle E-Business Suite and now wants to add another system such as the customer's own "web order portal" to support the same business process. This would be considered another application system and would require full-use licenses of the Oracle Technology products noted directly above. Another application system could also be another application instance, custom built, legacy or a third-party application system.

2) In cases where an additional Enterprise Business Object from the Foundation Pack Library is used, full-use licenses of the following Oracle Technology products and AIA product are required:

i. WebLogic Suite (for use of Internet Application Server Enterprise Edition)
ii. SOA Suite for Oracle Middleware
iii. Data Integrator Enterprise Edition (when used in the pre-built integration)
iv. Oracle Database Enterprise Edition
v. Application Integration Architecture Foundation Pack

Example: A customer buys the "Order-to-Cash" Process Integration Pack between Siebel CRM and Oracle E-Business Suite and now wants to extend the integration to include a new business object, such as "Asset" or integration flow, such as "Payment Terms." This would require full-use licenses of the Oracle Technology products noted directly above.

Oracle Service Registry is an optional component for Application Integration Architecture Foundation Packs and/or Process Integration Packs. You can install and use AIA products without Oracle Service Registry. However, if a customer wants to use Oracle Service Registry to manage only AIA objects and services at runtime, a restricted-use license of Oracle Service Registry is included.

The restricted-use license of Oracle Service Registry allows customers to view/edit objects and services included with AIA products. If a customer wants to use Oracle Service Registry to manage other content than standard out-of-the-box AIA content, the purchase of a full-use license of Oracle Service Registry is required.

Restricted-use license of Oracle Service Registry for AIA is limited to the following:

1) Viewing and consuming Oracle AIA content (Oracle intellectual property) available with their licensed AIA Foundation Pack and/or Process Integration Packs. The pre-built AIA content includes: Services/Binding Templates (WSDL), Schemas (XSD) and Transforms (XSLT/XQUERY);

© 2012 Oracle Corporation. All Rights Reserved.

2) Making limited modifications and extensions to the AIA content only in accordance with the AIA extension mechanism, and not for other purposes:
I. Adding custom attributes to the AIA schemas
II. Adding corresponding transforms for the custom attributes
III. Modifying out-of-the-box AIA services taxonomy/categorization
IV. Modifying out-of-the-box AIA endpoint binding templates
V. Adding new taxonomies or models to categorize (1) the out-of-the-box and (2) the extended Oracle AIA content

Any of the following conditions would trigger the full-use license of Oracle Service Registry with AIA:
I. Adding custom business services
II. Adding new operation to an existing service
III. Registering your own in-house services
IV. Adding new taxonomies or models to categorize customer specific content (from 1, 2, 3 above)
V. Modifying attributes and other metadata in Oracle Service Registry other than through the AIA extension mechanism

The following Application Integration Architecture (AIA) products include restricted-use rights of Oracle Technology and must adhere to the full-use rules noted above:

Application Integration Architecture Process Integration Packs

- Agile Product Lifecycle Management Integration Pack for Oracle E-Business Suite: Design to Release
- Agile Product Lifecycle Management Integration Pack for SAP: Design to Release
- CRM On Demand Integration Pack for JD Edwards EnterpriseOne: Lead to Order
- Design to Release Integration Pack for Agile Product Lifecycle Management and JD Edwards EnterpriseOne
- Design to Release Integration Pack for Agile Product Lifecycle Management for Process and Oracle E-Business Suite Process Manufacturing
- Driver Management Integration Pack for Oracle Transportation Management and Oracle E-Business Suite
- Financial Management Integration Pack for Oracle Transportation Management and Oracle E-Business Suite
- Financial Operations Control Integration Pack for Oracle Retail Merchandise Operations Management and E-Business Suite Financials
- Financials Accounting Hub Integration Pack for PeopleSoft General Ledger
- Lead to Order Integration Pack for Oracle CRM On Demand and JD Edwards World
- Order Management Integration Pack for Oracle Transportation Management, Oracle E-Business Suite and Siebel CRM
- Order to Activate Integration Pack Siebel CRM and Oracle Communications Order and Service Management
- Order to Cash Integration Pack for Siebel CRM and SAP
- Process Integration Pack for Oracle Utilities Field Work
- Project Portfolio Management Integration Pack for Primavera P6 and JD Edwards EnterpriseOne
- Project Portfolio Management Integration Pack for Primavera P6 and Oracle E-Business Suite
- Retail Merchandising Integration Pack for PeopleSoft Enterprise Financials: Financial Operations Control
- Serialization and Tracking Integration Pack for Oracle Pedigree and Serialization Manager and Oracle E-Business Suite
- Siebel CRM Integration Pack for Account Originations - Liability Products
- Siebel CRM Integration Pack for i-flex FLEXCUBE Account Originations - Liability Products
- Siebel CRM Integration Pack for Oracle Communications Billing and Revenue Management: Order to Bill
- Siebel CRM Integration Pack for Oracle Communications Billing and Revenue Management: Agent Assisted Billing Care
- Siebel CRM Integration Pack for Oracle Order Management
- Siebel CRM Integration Pack for Trade Promotion Management
- Study, Subject, and Visit Synchronization Integration Pack for Siebel Clinical and Oracle Clinical

© 2012 Oracle Corporation. All Rights Reserved.

Application Integration Architecture Process Integration Packs (Base + Options)

- Customer Master Data Management Integration Base Pack
- Customer Master Data Management Integration Option
- Product Master Data Management Integration Base Pack
- Product Master Data Management Integration Option

Application Integration Architecture Partial Process Integration Packs

- Clinical Trial Payments Integration Pack for Siebel Clinical
- Workforce Administration Integration Pack for PeopleSoft Human Resources

Application Integration Architecture Direct Integrations

- Communications Billing and Revenue Management Integration Pack for Oracle E-Business Suite: Revenue Accounting
- CRM On Demand Integration to Siebel CRM
- Demantra Integration Pack for Siebel CRM Consumer Goods
- Demantra Sales and Operations Planning Integration to Hyperion Planning
- Enterprise Taxation Management Integration to Oracle E-Business Suite Financials General Ledger and Accounts Payable
- Enterprise Taxation Management Integration to PeopleSoft Enterprise Financials General Ledger and Accounts Payable
- Enterprise Taxation Management Integration to Siebel Public Sector for Case Management
- Enterprise Taxation Management Integration to Siebel Public Sector for Taxpayer Service
- Siebel Call Center Integration Pack for Oracle Adverse Event Reporting System
- Siebel Field Service Integration to Oracle Real-Time Scheduler
- Siebel CRM Integration to Oracle Incentive Compensation
- Utilities Customer Care and Billing Integration to JD Edwards Financials for General Ledger and Accounts Payable
- Utilities Customer Care and Billing Integration to Oracle E-Business Suite Financials for General Ledger and Accounts Payable
- Utilities Customer Care and Billing Integration to Oracle Utilities Meter Data Management
- Utilities Customer Care and Billing Integration to Oracle Utilities Network Management System
- Utilities Customer Care and Billing Integration to PeopleSoft Enterprise Financials for General Ledger and Accounts Payable
- Value Chain Planning Integration Base Pack

Oracle Business Intelligence Publisher

Oracle E-Business Suite Applications include a restricted-use of Oracle Business Intelligence Publisher to publish and/or view:

1. Shipped Oracle Business Intelligence Publisher reports. Layout changes are allowed. AND
2. Shipped or newly created Oracle Business Intelligence Publisher reports that are modified to access data from the existing Oracle E-Business Suite Applications schema that has not been customized.

Full use of Business Intelligence Publisher is required if any shipped, modified or newly created Oracle Business Intelligence Publisher report:

1. Accesses data from a non-Oracle E-Business Suite Applications data source, or
2. Accesses data from a new schema within the Oracle E-Business Suite Applications that is not shipped by Oracle, or
3. Accesses data from a modified Oracle E-Business Suite Applications schema (e.g., by adding columns to an existing table).

Oracle JD Edwards EnterpriseOne Applications include a restricted-use of Oracle Business Intelligence Publisher to publish and/or view:

1. Shipped Oracle Business Intelligence Publisher reports. Layout changes are allowed, AND
2. Shipped or newly created Oracle Business Intelligence Publisher reports that are modified to access data from the existing JD Edwards EnterpriseOne Applications schema that has not been customized.

Full use of Oracle Business Intelligence Publisher is required if any shipped, modified or newly created Oracle Business Intelligence Publisher report:

1. Accesses data from a non-JD Edwards EnterpriseOne Applications data source, or
2. Accesses data from a new schema within the JD Edwards EnterpriseOne Applications that is not shipped by Oracle, or
3. Accesses data from a modified JD Edwards EnterpriseOne Applications schema (e.g. by adding columns to an existing table).

© 2012 Oracle Corporation. All Rights Reserved.

Oracle Demantra

Oracle Demantra products are offered under Oracle E-Business Suite, JD Edwards and Siebel licensing models. Regardless from which licensing model these products are procured, the aforementioned Oracle Technology Prerequisites Rules policy applies.

© 2012 Oracle Corporation. All Rights Reserved.

Oracle Governance, Risk, and Compliance

Oracle Governance, Risk, and Compliance (GRC) products are offered under the E-Business Suite and PeopleSoft licensing models. The following GRC products include restricted-use rights of Oracle Technology and must adhere to the full-use rules noted below:

- **Governance, Risk, and Compliance Manager**

  Governance, Risk, and Compliance Manager includes: Stellent Financial Compliance Director; Restricted use of Stellent Universal Content Management. Governance, Risk, and Compliance Manager Administrator(s) are permitted direct access to Universal Content Management's administrative tools and user interface for the purposes of installation and maintenance of Governance, Risk, and Compliance Manager.

- **Enterprise Governance, Risk, and Compliance Manager**

  Enterprise Governance, Risk, and Compliance Manager includes: Restricted-use: Oracle Database Enterprise Edition, WebLogic Suite, SOA Suite for Oracle Middleware, Oracle Data Integrator Enterprise Edition, Universal Content Management; each of which may only be used with the Enterprise Governance, Risk, and Compliance Manager product.

  Additional details on restricted-use rights for Enterprise Governance, Risk, and Compliance Manager: WebLogic Suite restricted to the following components: WebLogic Server Enterprise Edition and Diagnostics Pack for Oracle Middleware. Only a single instance of Enterprise Governance, Risk and Compliance Manager can be deployed within the WebLogic Suite domain. SOA Suite for Oracle Middleware limited to Web Services Manager, BPEL Process Manager, Oracle JDeveloper, and Oracle Business Rules. Oracle Data Integrator Enterprise Edition restricted to data movement from Enterprise Governance, Risk, and Compliance Manager to Oracle Business Intelligence Suite Enterprise Edition Plus or Business Intelligence Publisher for the purposes of Enterprise Governance, Risk, and Compliance Manager reporting. Universal Content Management: limited to content associated with the Enterprise Governance, Risk and Compliance Manager product.

  Full-use information for Enterprise Governance, Risk, and Compliance Manager for WebLogic Suite and SOA Suite for Oracle Middleware: Full-use of WebLogic Suite and SOA Suite for Oracle Middleware are required if you are doing any of the following (not a complete list):
  - Creating new transformations
  - Creating new Enterprise Service Bus routings
  - Creating new Business Process Execution Language (BPEL) processes or sub processes for non-GRC purposes
  - Creating new domain value maps or modify existing domain value maps for unsupported approval types
  - Creating new cross reference tables
  - Defining new security policy for custom web services for non-GRC purposes
  - Using WebLogic Suite for something other than the SOA Suite for Oracle Middleware in support of the Enterprise Governance, Risk, and Compliance Manager product.

- **Fusion Governance, Risk, and Compliance Intelligence**

  Restricted-use: Oracle Database Enterprise Edition. Restricted-use: Oracle Data Integrator Enterprise Edition (restricted to use with Fusion Governance, Risk, and Compliance Intelligence as the only target).

- **Applications Access Controls Governor**

  Restricted-use: Oracle Database Enterprise Edition, WebLogic Suite, Oracle Data Integrator Enterprise Edition; each of which may only be used with the Application Access Controls Governor product.

  Additional details on restricted-use rights: WebLogic Suite restricted to the following components: WebLogic Server and Diagnostics Pack for Oracle Middleware. Only a single instance of Application Access Controls Governor can be deployed within the WebLogic Suite domain. Restricted use Oracle Data Integrator Enterprise Edition (restricted to use with Application Access Controls Governor as the only target).

- **Configuration Controls Governor**

  Restricted-use: Oracle Database Enterprise Edition

© 2012 Oracle Corporation. All Rights Reserved.

See also Oracle Business Intelligence Publisher section and Oracle Demantra section for more information regarding JD Edwards EnterpriseOne.

All Oracle JD Edwards EnterpriseOne deals include restricted-use of the Oracle Database Enterprise Edition for use with JD Edwards EnterpriseOne for installing, patching and managing product metadata. This encompasses usage by the JD Edwards EnterpriseOne installation programs, deployment server and development client. Storing any other data in the database requires a full use license of the Oracle Database Enterprise Edition.

All Oracle JD Edwards EnterpriseOne deals include restricted Use: Oracle Secure Enterprise Search solely for use with licensed JD Edwards EnterpriseOne applications.

© 2012 Oracle Corporation. All Rights Reserved.

Oracle Master Data Management

The following Master Data Management (MDM) programs or components of programs do not include a restricted-use of the underlying Oracle Technology: Siebel Universal Customer Master B2B / B2C (a component of Oracle Customer Hub for B2B/B2C or Oracle Customer Hub Add-on B2B/B2C), Oracle Activity Hub B2B / B2C, Oracle Field Service Hub B2B / B2C, Oracle Marketing Hub B2B / B2C, Oracle Sales Hub B2B / B2C, Oracle Service Hub B2B / B2C, Siebel Customer Data Steward (a component of Oracle Customer Hub Data Steward), Oracle / Siebel Data Quality, Oracle / Siebel Data Quality Matching Server, Siebel Product Data Steward (a component of Oracle Product Hub Data Steward), Oracle Automotive Captive Finance Customer Hub, Oracle Case Hub, Oracle Life Sciences Customer Hub, Siebel Universal Product Master (a component of Oracle Product Hub or Oracle Product Hub Add-on).

© 2012 Oracle Corporation. All Rights Reserved.

Oracle Primavera

The following Oracle Primavera programs include restricted-use rights of Oracle Technology:

- **Primavera P6 Enterprise Project Portfolio Management**

Restricted-use: WebLogic Server Standard Edition only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering, coherence or EJBs. For example, if a customer wishes to cluster their Primavera P6 Enterprise Project Portfolio Management instance, that would trigger a full-use license of WebLogic Server Standard Edition.

Restricted-use: JRockit JVM only used for Primavera P6 Enterprise Project Portfolio Management servers. This is a runtime license that does not allow customers to utilize JRockit JVM for other applications or instances."

Restricted-use: Universal Content Management Standard Edition only valid for workspaces or folders that are built from Primavera P6 Enterprise Project Portfolio Management. Only valid for repositories that store Primavera P6 Enterprise Project Portfolio Management documents, artifacts and work products. Creating any repositories, folders, workspaces, etc. manually outside of Primavera applications will trigger full-use. Only licensed Primavera application users can access the repository. For example, creating a new departmental workspace or folder would trigger a full-use license.

Restricted-use: Application Development Framework. This does not grant permission to customers to build, deploy or resell Application Development Framework user interface components or applications.

Restricted-use: Oracle HTTP Server used for access outside corporate firewall and single sign-on (SSO). May not be used for any purposes outside of those requirements.

Restricted-use: EclipseLink used only for Primavera P6 Enterprise Project Portfolio Management persistence. Run-time only and may not be used to build any other applications.

Restricted-use: WebCenter only for portals built using Primavera portlets. Not valid for adding non-Primavera portals, workspaces, etc. For example, a user who creates additional organizational or departmental portals would trigger full-use license of WebCenter. Additionally, attempts to modify Primavera portals would likewise trigger full-use license.

Restricted-use: Business Intelligence Publisher valid for users to schedule/execute/run reports within the Primavera application. Any users who need to customize or create new reports will need a full-use license of Business Intelligence Publisher. There is no minimum named user requirement for Business Intelligence Publisher for Primavera applications.

For users who change or create new workflows using web services and events from Primavera applications, Named User Plus licenses are recommended for Unified Business Process Management Suite (or Unified Business Process Management Suite for Oracle Applications), SOA Suite for Oracle Middleware (or SOA Suite for Oracle Middleware for Oracle Applications), and WebLogic Suite (or WebLogic Suite for Oracle Applications). No license of SOA Suite for Oracle Middleware or Unified Business Process Management Suite is required for users who are consuming/participating in the workflows or forms. Also, there is no minimum Named User Plus requirement for Unified Business Process Management Suite, SOA Suite for Oracle Middleware, and WebLogic Suite for Primavera applications.

- **Primavera P6 Progress Reporter**

Restricted-use: WebLogic Server Standard Edition only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering, coherence or EJBs. For example, if a customer wishes to cluster their Primavera P6 Progress Reporter instance, that would trigger a full-use license of WebLogic Server Standard Edition.

Restricted-use: JRockit JVM only used for Primavera P6 Progress Reporter servers. This is a runtime license that does not allow customers to utilize JRockit JVM for other applications or instances.

© 2012 Oracle Corporation. All Rights Reserved.

Restricted-use: Application Development Framework. This does not grant permission to customers to build, deploy or resell Application Development Framework user interface components or applications."

Restricted-use: Oracle HTTP Server used only for access outside corporate firewall and single sign-on (SSO). May not be used for any purposes outside of those requirements.

Restricted-use: EclipseLink used only for Primavera P6 Progress Reporter persistence. Run-time only and may not be used to build any other applications.

- **Primavera Contract Management**

Restricted-use: WebLogic Server Standard Edition only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering or coherence. For example, if a customer wishes to cluster their Primavera Contract Management instance, that would trigger a full-use license of WebLogic Server Standard Edition.

Restricted-use: JRockit JVM only used for Primavera Contract Management servers. This is a runtime license that does not allow customers to utilize JRockit JVM for other applications or instances.

Restricted-use: Universal Content Management Standard Edition only valid for workspaces or folders that are built from Primavera Contract Management. Only valid for repositories that store Primavera Contract Management documents, artifacts and work products. Creating any repositories, folders, workspaces, etc. manually outside of Primavera applications will trigger full-use. Only licensed Primavera application users can access the repository. For example, creating a new departmental workspace or folder would trigger a full-use license.

Restricted-use: Oracle HTTP Server used only for access outside corporate firewall and single sign-on (SSO). May not be used for any purposes outside of those requirements.

Restricted-use: EclipseLink used only for Primavera Contract Management persistence. Run-time only and may not be used to build any other applications.

Restricted-use: WebCenter only for portals built using Primavera portlets. Not valid for adding non-Primavera portals, workspaces, etc. For example, a user who creates additional organizational or departmental portals would trigger full-use license of WebCenter. Additionally, attempts to modify Primavera portals would likewise trigger full-use license.

Restricted-use: Business Intelligence Publisher valid for users to schedule/execute/run reports within the Primavera application. Any users who need to customize or create new reports will need a license of Business Intelligence Publisher. There is no minimum named user requirement for Business Intelligence Publisher for Primavera applications.

For users who change or create new workflows using web services and events from Primavera applications, Named User Plus licenses are recommended for Unified Business Process Management Suite (or Unified Business Process Management Suite for Oracle Applications), SOA Suite for Oracle Middleware (or SOA Suite for Oracle Middleware for Oracle Applications), and WebLogic Suite (or WebLogic Suite for Oracle Applications). No license of SOA Suite for Oracle Middleware or Unified Business Process Management Suite is required for users who are consuming/participating in the workflows or forms. Also, there is no minimum Named User Plus requirement for Unified Business Process Management Suite, SOA Suite for Oracle Middleware, and WebLogic Suite for Primavera applications.

- **Primavera Portfolio Management**

Restricted-use: Business Intelligence Publisher valid for users to schedule/execute/run reports within the Primavera application. Any users who need to customize or create new reports will need a full use license of Business Intelligence Publisher. There is no minimum Named User Plus requirement for Business Intelligence Publisher for Primavera applications.

© 2012 Oracle Corporation. All Rights Reserved.

For users who change or create new workflows using web services and events from Primavera applications, Named User Plus licenses are recommended for Unified Business Process Management Suite (or Unified Business Process Management Suite for Oracle Applications), SOA Suite for Oracle Middleware (or SOA Suite for Oracle Middleware for Oracle Applications), and WebLogic Suite (or WebLogic Suite for Oracle Applications). No license of SOA Suite for Oracle Middleware or Unified Business Process Management Suite is required for users who are consuming/participating in the workflows or forms. Also, there is no minimum Named User Plus requirement for Unified Business Process Management Suite, SOA Suite for Oracle Middleware, and WebLogic Suite for Primavera applications.

- **Primavera Web Services**

Restricted-use: WebLogic Server Standard Edition only allowed to run in WebLogic Server Standard Edition instance. No other web applications may be deployed in this instance of WebLogic Server Standard Edition. Restricted to only WebLogic Server Standard Edition features, not the WebLogic Server Enterprise Edition features or WebLogic Suite features. This does NOT include the use of clustering, coherence or EJBs. For example, if a customer wishes to cluster their Primavera P6 Web Services instance, that would trigger a full-use license of WebLogic Server Standard Edition.

Restricted-use: Universal Content Management Standard Edition only valid for workspaces or folders that are built from Primavera Web Services. Only valid for repositories that store Primavera Web Services documents, artifacts and work products. Creating any repositories, folders, workspaces, etc. manually outside of Primavera applications will trigger full-use. Only licensed Primavera application users can access the repository. For example, creating a new departmental workspace or folder would trigger a full-use license.
